

## TEXAS RAINS DISASTROUS

**World Series to One Dead, Scores Homeless**  
Heaviest Downpour of Forty Years Recorded Through Northeast Area  
Texarkana Business Section Under Two Feet of Water; Rescues Numerous

DALLAS (Tex.) Oct. 10. (AP)—One death, scores made homeless, heavy damages as yet unestimated, and many narrow escapes were the toll exacted in Northwest Texas today by heavy rains, which, in at least two cities, was the heaviest in more than forty years' history of the local weather bureau.

The fatality occurred near Sherman, where R. W. Haynie, 38, 18 years of age, was swept to his death when he and Roy Wildie, 20, attempted to ford a swollen stream in an automobile. Wildie swam to safety.

The precipitation at Sherman at noon today for the twenty-four hours was 6.87 inches and at Texarkana, the fall for twelve hours up until noon was 9.25 inches. Heavy rain fell from Texarkana, recorded four inches, three inches fell at Denison, while reports to Waco indicated that Central Texas had been blanketed by a fall of approximately one inch.

**HEAVY DOWNPOUR  
FLOODS TEXARKANA**  
Texarkana (Tex.) Oct. 10. (AP)—Scores of residents of a section in the west part of Texarkana inhabited largely by negroes were driven from their homes by flood waters today. More than twenty persons were rescued and some property damaged was caused by rainfall, officially measured, at 9.25 inches, which fell within a few hours.

Water ranged from depths of a few inches to two feet in the business and parts of residential sections and eight feet in lowlands of the Bushman Creek bottoms.

Most of the families in the business section fled their homes early. But twenty who remained were rescued by police and firemen who waded through the water.

The business of an overstore of the Red River diminished as waters of the stream fell two feet.

**SEVEREST FLOOD IN  
MANY YEARS FORECAST**  
FORT SMITH (Ark.) Oct. 10. (AP)—The severest flood since 1918, with probable heavier property damage was forecast today by T. G. Shipman, flood forecaster and Weather Bureau meteorologist.

Shipman said that heavy rains of yesterday night on the upper reaches of the Arkansas River and in the vicinity would bring a new flood crest of thirty-two feet, four feet higher than the high mark of last week. He warned in counties of lowlands to take out all movable property before Tuesday, when it is expected the new crest will be reached.

Today's river gauge reading was 77.5 feet at noon and slowly rising.

ALASKA LINE SOLD  
Railroad Will Be Rehabilitated to Haul Coal to Docks  
CORDOVA (Alaska) Oct. 10. (AP)—The Alaska Railroad at Cordova was purchased yesterday at a foreclosure sale by Attorney A. J. D. O'Connell, representing bondholders, who were said to have acquired \$800,000 worth of bonds. The sale liquidated a \$600,000 indebtedness. It was said that the railroad will be rehabilitated at an estimated cost of \$1,000,000 to carry coal from the Cordova River and deliver to Controller Bay at Kodiak.

## Neglecting the Other Child

## UNIVERSITY REGENTS BID FOR MILLER

**Bankers' Educational  
Head Offered Free Hand  
to Take Suzzallo's Post**  
SEATTLE, Oct. 10. (AP)—A three-hour conference here today between the regents of the University of Washington and Stephen Van Miller, educational director of the American Bankers' Association, ended with a statement by Miller that he is undecided whether he will accept the university presidency which the regents offered him. Miller would replace Dr. Henry Suzzallo, who was given an indefinite leave of absence a week ago after the regents demanded his resignation and he refused to quit.

The regents bid Miller that if he accepted the position they would give him a free hand in educational policies and in the appointment of an instructional staff, and that they would seek appropriations to "maintain a high educational standard."

Miller indicated that he would accept or reject the position by Thursday. He informed the regents that he had been in Seattle until then. A. H. B. Jordan, president of the regents, said that should Miller refuse the position, he would not vote for Prof. Alexander Meiklejohn of the University of Wisconsin and former president of the American Bankers' Association, who had been mentioned among eight persons who might be considered for the university presidency.

## TWO ALASKA TOWNS PREY TO FLAMES

**Scores Homeless in Fire  
That Spread From Village  
Occupied by Indians**  
JUNEAU (Alaska) Oct. 10. (AP)—Seventy-five white persons and 150 Indians are homeless after a fire which today swept the towns of Douglas and Treadwell, on Douglas Island, two miles from Juneau. Residents of twenty-four white and forty-two Indian families were destroyed.

The fire started in an Indian village near Douglas and wiped it out. Carried before a heavy wind, the flames jumped into the town of Douglas and destroyed thirteen residences of white persons, two business buildings, the Catholic and Congregational churches and an old hospital.

From Douglas the fire spread a half-mile to Treadwell, where it wiped out a store, an office building and eleven residences occupied by white families. The household belongings of every family made homeless by the fire were lost.

The Juneau Chapter of the American Red Cross started efforts to provide housing facilities for the homeless.

## WILL ROGERS GOES A-SHOPPING

TORONTO (Ont.) Oct. 10. (Exclusive)—Had just arrived home after fixing everything up in Europe, when White House spokesman dispatched me to look over Canada and make England following offer for it: One doubtful World Court seat. Prohibition, including enforcement officers. "Peaches." Hayti. All States south of Dixon Line. And throw in Al Smith. Deal pending. Will wire tomorrow.

WILL ROGERS.

## DUCE TELLS HIS HOPES ONE JUROR BELIEVED BAR TO DAUGHERTY ACQUITTAL

**Describes Black Venireman Complains to Judge  
Bread Plan Duress Being Used to Bring  
Dissenter Into Line**

NEW YORK, Oct. 10. (AP)—A verdict reached only under duress of the majority was the sole alternative to immediate discharge of the jury in the Daugherty-Miller conspiracy trial, one juror asserted from the jury box tonight. The juror, Henry Van Ost, generally was believed to be the pivot of an acquittal group in the jury, although, in his complaints of "duress" to Judge Mack, he described a hypothetical juror who had "made up his mind" five minutes after being charged and would not change his opinion or even discuss with other jurors his reasons for holding such opinion. At one time, he said, "I speak only for myself."

## NORTHERN RAIN GOES EASTWARD

**Heavy All-Night Storm  
Drenches Bay District and  
Upper Interior Valleys**  
SAN FRANCISCO, Oct. 10. (Exclusive)—True to the predictions of the weather forecaster, the heavy wind and rainstorm which visited Northern and Central California last night passed to the east early this morning. Comparatively little damage was done outside of putting a definite finish to this year's grape crop. Agriculturists will now find the soil in excellent condition for fall tillage.

Heavy rains fell throughout the entire bay and valley districts during the entire night, ceasing only with the daybreak.

The rainfall figures for the twenty-four hours ended at 5 p.m. follow:

day's work, which lasted till the small hours of Sunday.

The writer's name headed a long list of Senators, Deputies and functionaries with whom Premier Mussolini as president of the council, as minister of the three separate departments of army, navy and air force, as head of still another three sections of the government, and finally as commander of the Fascist militia, had made appointments for yesterday afternoon. The writer recalled that Saturday is not one of his usual reception days.

### SHOWS NO FATIGUE

His practice is to devote the forenoons of Mondays, Wednesdays and Fridays to the reception of visitors. He has been doing this for the "off days" of this marvelous worker. After not more than three hours' work, he has been seen by the press, Premier Mussolini showed no fatigue. He was dressed in a suit, bathed in the fountain of youth, so smooth and clear was his skin, so fresh and young his nose, his mouth, his eyes, his hair, his manner. Albeit, a young man in the fortyies, there is something in his face that is more than youth.

### HEAVY ALL-NIGHT STORM DRENCHES Bay Districts and Upper Interior Valleys

RAM FRANCISCO, Oct. 18. (AP)—True to the predictions of the weather forecaster, the heavy wind and rainstorm which visited Northern and Central California last night drenched the coast early this morning. Comparatively little damage was done outside of putting a definite damper on the early start of the agriculturists will now find the soil in excellent condition for fall tilage.

Heavy rain fell in the Sacramento, San Joaquin and San Francisco Bay and valley districts during the entire night, ceasing only with the dawn.

The rainfall figures for the twenty-four hours ended at 5 p.m. follow:

CHURCH SERVICES FEATURE  
CITY BIRTHDAY FETE

Columbus Day, Sesquicentennial  
Jointly Observed With Parade  
and Pontifical Mass

SAN FRANCISCO, Oct. 10. (Exclusive).—San Francisco's  
centennial and fiftieth birthday and the four hundred and  
fifty anniversary of the discovery of America by Co-  
lumbus were celebrated jointly today with services at two  
cathedral and exercises at Mission Park. Mission  
Park, which shares with the Presidio the distinction  
of being the nucleus of the city of San Francisco, was the cen-  
ter of the greatest in today's celebration, just as the  
city had been the day before.

The sermon for the occasion was  
delivered by Archbishop Austin Dowling,  
of St. Paul, who traced the  
growth of San Francisco from the  
time of the founding of Mission Do-  
lorosa by the friars in 1776, down  
through the gold rush days and up  
to the present time.

Others who took part in the mass  
included Rt. Rev. G. A. Hamm and  
St. Rev. C. A. Gleason as deacons  
of honor. Rev. John W. Brookings,  
deacon of the mass; Rev. F. D. Ahern,  
subdeacon of the mass and Rt. Rev.  
J. S. McDonough, master of ceremonies.  
Rev. John W. Sullivan, pastor  
of the Mission Dolores church, had  
charge of the day's celebration.

At the same hour that the sesqui-  
centennial was being observed at  
the mission, Columbus Day services  
were being held at the Italian church  
of Santa Peter and Paul.

The public parade was joined in  
by both the Columbus Day and the  
sesquicentennial groups, and was fol-  
lowed by the services at Mission  
Park. An address of welcome by  
Mayor Rolph was followed by a brief  
address by Archbishop Dowling. Judge  
John F. Davis delivered the sesqui-  
centennial oration, again telling the  
story of the founding of San Fran-  
cisco, of the trials of the friars, and  
the growth of the city around the  
mission and the Presidio. He also  
told much of the history of the city  
under the various governments from  
the Spanish rule down to the pres-  
ent.

A blessing by Cardinal Hayes fol-  
lowed vocal selections by Charles F.  
Bulotti. Community singing and  
the playing of the "Star Spangled  
Banner" by the municipal band  
closed the program.

LOS ANGELES  
MANNED BY  
VETERANS

Survivors of Ill-Fated  
Shenandoah to Form Crew  
on Flight Today

WASHINGTON, Oct. 10. (P).—Ten  
survivors of the Shenandoah dis-  
aster probably will be members of the  
crew of the naval ship which will  
leave Los Angeles when she sails tomorrow  
or later, from the Atlantic Coast for  
Detroit.

Besides Lieutenant Commander  
Rosenbuhl, skipper of the Los An-  
geles and senior surviving officer of  
the wrecked dirigible, two others of  
the ten officers now assigned to the  
trip also are Shenandoah survivors.  
They are Lieut. Mayr and Lieut.  
Bauch.

Of the forty enlisted men assigned  
to the ship and from whom will be  
selected the crew for the Detroit  
flight are seven Shenandoah sur-  
vivors. They are Chief Riggers Aisley,  
Carlson and Packham, Chief Me-  
chanic's Mate Russell, Rigger Bos-  
well, first class, and Mechanic's  
Mate Solar and Malik.

The Los Angeles will carry a total  
of thirty-eight or forty men and of-  
ficers. The crew probably will in-  
clude four men who were members  
of the ground crew sent to England  
to be trained with and bring back  
the 4-38 which was burned in the  
air in England.

RESIDENTS OF PHOENIX  
OPPOSE ESPEE SPURS

PHOENIX, Oct. 10. (Exclusive).—  
When the Southern Pacific took over  
the franchise of the El Paso and  
Southwestern Railroad System, it ac-  
quired a large quantity of real estate  
in the southern part of Phoenix, gen-  
erally paralleling Madison street, over  
which the first organization, the Tuo-  
son, Phoenix and Tidewater Railroad  
Company was to be permitted to pass  
through the city. The Madison-street  
franchise expired but the land re-  
mains, generally lying between the  
Santa Fe line on Jackson street and  
the business part of the city. Now  
the Southern Pacific is trying to get  
permission to run service spur tracks  
down the alley between Jackson and  
Madison and is meeting with much lo-  
cal opposition, despite declarations  
that the tracks will be needed in ex-  
panding of the jobbing and manu-  
facturing interests of the city.

PRELATE PRESIDES  
AT RELIGIOUS RITE

WASHINGTON, Oct. 10. (Exclusive).—  
The cost of living in the United  
States apparently is rising now at  
the rate of from \$2,000,000 to \$5,000-  
000 a day, taking the retail spend-  
ings of the country as a whole. That  
means that each day the American  
people are spending for their food,  
clothing, fuel, rents and all other  
purchases from \$2,000,000 to \$5,000-  
000 more today than they spent a  
year ago today for the same quantity  
of goods; and that the amount will  
gradually increase until the rise prob-  
ably will reach a daily figure of  
\$7,000,000—possibly more.

This conclusion, as will be shown  
presently, is fully justified by official  
governmental findings relating to the  
decline in living costs over a period  
of twelve months. The upswing has  
not started recently so it is difficult  
to measure its exact daily dimen-  
sions. Hence the wide variation in  
the minimum and maximum esti-  
mates.

At the same time, however, the ap-  
parently high rate at which living costs  
have begun to increase, the survey shows  
that the climb would have to con-  
tinue at its present rate for more  
than eight years to come before the  
wholesale price of foodstuffs would  
reach the high levels attained in  
1920, the year of our greatest living  
cost, and that wholesale prices of all  
commodities would have to rise at  
their present estimated rate for near-  
ly twelve years before the level is  
brought up to the present.

Although it is difficult to measure  
the exact daily increase, by dollars  
and cents, it is relatively easy to mea-  
sure the extent to which the cost of  
living declined between August, 1925,  
and August, 1926, the latter month  
being the latest for which the bureau  
of labor statistics has compiled com-  
plete figures. The measure based up-  
on those findings indicates that the  
cost of living declined to the extent  
of about \$2,677,000,000 during the  
year. To put it another way, the  
American people paid out last August  
\$2,677,000,000 less for same volume  
of goods as that purchased by them in  
August, 1925.

Actually, however, in dollars and  
cents, they paid out more, as the  
amount of goods purchased, due to  
increased prosperity and the larger  
population, was greater last August  
than it was in August, 1925.

HOW ESTIMATE IS MADE  
Here is the way that estimate was  
reached:  
Over the period of twelve months  
the bureau of labor statistics has  
found that prices of goods declined  
6.67 per cent. In reaching this con-  
clusion, the bureau canvassed prices  
of a large number of articles bought  
and sold in large quantities. These  
articles were listed in groups. Thus  
one group covering farm products,  
includes dairy products, feeds and  
so on, extending to virtually every-  
thing sold by the farmers of the  
country.

The decline in the case of that par-  
ticular group, the record shows, was  
extremely heavy, so far as a whole-  
sale price was concerned. In August  
last, the findings show, \$1.38 would  
buy as much in farm products on  
the average, as \$1.43 would buy in  
August, 1925. The rate of decrease  
therefore was about 3.5 per cent, or  
more than one-eighth. Thus the  
purchaser of farm products in whole-  
sale markets could buy for \$3.48  
August as much merchandise as he  
bought for \$3.60 during August, 1925.  
Another group covers clothing.  
The decline there was less than the  
average for all purchases amounting  
to about 6 per cent which means  
that \$18 last August would buy about  
as much clothing as \$19 would have  
bought in August, 1925.

Fuels, foods, building materials,  
metal products, chemicals, drugs,  
house furnishings and a long list of  
miscellaneous articles were similarly  
canvassed by the bureau in reaching  
the conclusion that the drop in  
prices during the year amounted to  
about 6.67 per cent.

PRICES CANVASSED  
Retail prices of the chief articles  
of food were also canvassed. These  
included steaks, roasts, chops, bacon,  
ham, eggs, hens, milk, butter, cheese,  
lard, bread, flour, corn meal, rice, po-  
tatoes, sugar, tea and coffee. In  
these retail prices the drop was far  
less pronounced. In round figures,  
the survey shows, \$3.21 spent last Au-  
gust would buy, on the average, the  
same quantity of these foodstuffs at  
\$3.39 would buy in August, 1925.  
So much for the general trend. In  
measuring the amount of articles  
sold in trade, the Bureau of Internal  
Revenue, another branch of the gov-  
ernment, has compiled some figures  
from tax returns of corporations and  
individuals which indicate that the  
retail trade of the United States  
runs to about \$40,000,000,000 a year.  
These figures show, for instance,  
that the corporations engaged in re-  
tail and wholesale trade are selling  
about \$33,000,000,000 worth of goods  
annually, from which they derive a  
gross profit of about 30 cents on the  
dollar. One of the gross profits must  
come rent, taxes and a host of other  
charges which shiver the net profit  
to about 3 cents on the dol-  
lar.

TRADE EIGHTY BILLIONS  
The figures also indicate that the  
corporations do only about 40 per  
cent or two-fifths of the country's  
entire retail and wholesale business  
and that the remaining 60 per cent  
is done by individuals. Such being  
the case, the total wholesale and  
retail trade amounts to more than  
\$80,000,000,000 a year. If half of that  
volume or somewhat less—which  
probably is the correct proportion—is  
strictly retail business, then the  
volume of the retail business amounts  
to \$40,000,000,000 annually. This,  
incidentally, is close to other unof-  
ficial estimates.

A decline in prices of 6.67 per cent  
on the volume business amounts to  
about \$2,677,000,000. Over the per-  
iod of a year, the decline averaged about  
\$267,700,000 a month or somewhat  
more than \$7,000,000 a day.

That decline, which apparently  
ended and is now being followed by  
a gradual increase, is greater, on  
the average, than the ensuing up-  
ward trend, particularly at the be-  
ginning of the rise. This has always  
been true, the record shows, for the  
country as a whole. Hence, until the  
rising living costs gather momentum  
they do not approach, in all likeli-  
hood, the average rate of decline, but  
fall below it.

And from the story told in previ-

ous cycles of the sort the estimate  
of a minimum increase of \$2,000,000  
a day—as measured against the pre-  
vious average decline of \$7,000,000 a  
day—would appear conservative. It  
probably is too conservative. And,  
on the other hand, the figures in-  
dicate, \$5,000,000 a day is too high  
an estimate for the present rise.  
Somewhere between the two ex-  
tremes, in all probability, lies the  
real measure of our rise in the cost  
of living at the present time.

LITTLE GREEN  
HOUSE SOLD  
K Street Home Famous in  
Naval-Oil Lease Inquiry  
Changes Hands  
WASHINGTON, Oct. 10. (Ex-  
clusive).—The "little green  
house" in K Street which  
figured prominently in the in-  
vestigation of the naval oil  
lease, has been sold and will  
be turned into a store and  
apartments.  
During the oil investigation,  
it was testified that Jess Smith,  
the "handy man" of former  
Atty-Gen. Daugherty, had  
parties and gatherings in the  
"little green house," which  
was attended by many men  
prominent in the Harding ad-  
ministration. Mr. Daugherty  
was one of those who went  
often to the house, according  
to the testimony.

One of the sort the estimate  
of a minimum increase of \$2,000,000  
a day—as measured against the pre-  
vious average decline of \$7,000,000 a  
day—would appear conservative. It  
probably is too conservative. And,  
on the other hand, the figures in-  
dicate, \$5,000,000 a day is too high  
an estimate for the present rise.  
Somewhere between the two ex-  
tremes, in all probability, lies the  
real measure of our rise in the cost  
of living at the present time.

LADY KATE  
BIDES FATE  
IN PRISON  
Scotch Lassie Who Made  
Bid for Film Job as Titled  
Dame May Be Deported  
NEW YORK, Oct. 10. (Exclusive).  
One soiled gown was all that  
remained of her stolen finery. So all  
Catherine Miller, 18-year-old Scotch  
immigrant girl, could do yesterday  
when a magistrate dropped, "pat-  
ented" charge grand larceny, hear-  
ing Monday, was to bow her wit-  
ful head and take her shattered  
flourish off to jail.  
For a week she had lived in the big  
hotels as "Lady Webster."  
In the cell room of the Morrisania  
Court, she faced with the possi-  
bility of deportation, she told reporters  
she was born in Glasgow, Scotland.  
Her parents had her educated in a  
select private school. A year ago they  
died. They left little for Catherine.  
She spent her small heritage for a  
cottage in Canada.  
On the way she met an American  
actor, who brought her into the  
United States as her maid, and left  
two days later with all Catherine's  
clothes.  
She hired out as a maid. Last Au-  
gust, according to police records, she  
led with \$1400 of her mistress's  
gowns. She went to the Baltimore  
registered as Lady Webster, and for a  
week met movie and stage agents,  
seeking to land a movie job.  
Though she may receive a suspended  
sentence, for the clothes have been  
recovered, she will have to face de-  
portation proceedings.

Notes Expected  
on Reparation  
Security Sale  
WASHINGTON, Oct. 10. (Exclusive).  
Important developments of a definite  
character are looked for in the near  
future in connection with the propo-  
sals to sell part of the 11,000,000-  
700 gold marks worth of German  
railway bonds which are held as se-  
curity for the payment of German  
reparations, and a considerable part  
of which, perhaps one-half of the is-  
sue, would have to be sold in the  
United States.  
The question of the sale of these  
bonds, it is asserted both at the State  
and Treasury Departments, has never  
been presented in any formal man-  
ner, either by the European govern-  
ments or by interested international  
bankers, to this government.  
The first formal presentation of  
this matter to the American govern-  
ment will be made, it is believed,  
through notes to be delivered anon-  
ymously in the usual diplomatic way by  
France, Italy and Belgium. The reason  
for this method of approach is due  
to the fact that the United States  
is one of the nations which, under  
the Dawes plan and the Paris  
agreement, would be affected by the  
sale of all or any part of the Ger-  
man Railway bonds.

PURCHASE OF YUMA  
UTILITY REPORTED  
YUMA (Ariz.), Oct. 10. (Exclusive).  
Sale of the Yuma Utilities Com-  
pany's property and local franchise to  
the Southern Sierras Power Company,  
from which the Yuma company has  
been getting its electric current, has  
been reported. San Diego financial  
interests, led by Leroy Wright, have  
formed the Yuma Trust and Holding  
Company, with \$1,000,000 capital. The  
incorporators, beside Mr. Wright, are  
S. L. Patterson and E. L. Brownstet-  
ter. Another Wright corporation, just  
formed, is the Yuma Mesa Grape  
Fruit Company with \$500,000 capital.

NEW LAMP HAS NO  
WICK OR CHIMNEY  
Most Brilliant Home Light Known  
—Costs One Cent a Night  
A new lamp which has no wick or  
chimney, yet gives the most power-  
ful home light in the world, is the  
latest achievement of The Sunbeam  
Safety Lamp Co., 891 Sunbeam Bldg.,  
Kansas City, Mo. This remarkable  
new lamp burns gas or electricity—  
gives more light than 300 candles, is  
ordinary lamp or 10 brilliant electric  
lights, and costs only one cent a  
night. A blessing to every home,  
especially on farms or in small towns.  
It is the ambition of the manufac-  
turers to have every home enjoy this  
pleasing, brilliant white light. They  
will send one of these new lamps on  
free trial to any reader of The Los  
Angeles Times who writes: "They  
want one person in each locality to  
whom they can refer new customers.  
Take advantage of this free offer.  
Write them today. Agents wanted."

MARIE VISITS  
ART GALLERY  
Queen Later Buffets Paris  
Auto Show Crowd  
Spends Time Mostly Looking  
at American Cars  
Princess Ileana Prefers  
Yachting Exhibition  
PARIS, Oct. 10. (P).—Sunday was  
hardly a day of rest for the active  
Queen of Rumania. The Rumanian  
Minister called at her hotel shortly  
before noon and Queen Marie went  
with him to visit the salon of the  
"French Palette," on one of the  
grand boulevards, to view some mod-  
ern paintings and other works of  
art.  
On this excursion the Queen's two  
ladies-in-waiting accompanied her,  
and she was recognized by the Sun-  
day strollers. Many were the com-  
ments on her striking beauty, regal  
bearing, friendly manner and attrac-  
tive clothes.  
While the Queen was inspecting the  
paintings, Princess Ileana, who has  
an ardent liking for yachting, went  
to the Salon Nautique, on the Seine,  
where a motorboat and yachting show  
is being held simultaneously with the  
annual automobile exhibition in the  
Grand Palais, only a few yards away.  
The young Princess was formally re-  
ceived by the president of the com-  
mittee and conducted around the ex-  
hibition. It was the first time since  
her arrival in Paris, however, that she  
had been welcomed formally as a Princess.  
Queen Marie was hosted at a family  
luncheon at the hotel. In the after-  
noon she went to the automobile  
show, and found the place packed  
with people, among whom were  
many with no particular interest,  
other than in seeing the Queen.  
Marie spent a considerable part of  
her visit in looking at American cars  
and remarked that she often won-  
dered how it must strike the eyes of  
Europeans, who are for the most part  
pedestrians, when they first enter the  
swirling traffic of a country where  
almost every family has its own auto-  
mobile.  
COMMITTEE SOUGHT  
TO GREET QUEEN MARIE  
PHOENIX, Oct. 10. (Exclusive).—  
Gov. Hunt's secretary is looking for  
ambitious Arizona women to serve on  
a national reception committee that  
is to meet Queen Marie of Rumania  
in New York the 20th inst. and to  
represent the State in the various so-  
cial functions. No expense money is  
attached to the honor, and thus far  
no applications are reported.  
The chance of death by lightning is  
less than one in 1,000,000.

LADY KATE  
BIDES FATE  
IN PRISON  
Scotch Lassie Who Made  
Bid for Film Job as Titled  
Dame May Be Deported  
NEW YORK, Oct. 10. (Exclusive).  
One soiled gown was all that  
remained of her stolen finery. So all  
Catherine Miller, 18-year-old Scotch  
immigrant girl, could do yesterday  
when a magistrate dropped, "pat-  
ented" charge grand larceny, hear-  
ing Monday, was to bow her wit-  
ful head and take her shattered  
flourish off to jail.  
For a week she had lived in the big  
hotels as "Lady Webster."  
In the cell room of the Morrisania  
Court, she faced with the possi-  
bility of deportation, she told reporters  
she was born in Glasgow, Scotland.  
Her parents had her educated in a  
select private school. A year ago they  
died. They left little for Catherine.  
She spent her small heritage for a  
cottage in Canada.  
On the way she met an American  
actor, who brought her into the  
United States as her maid, and left  
two days later with all Catherine's  
clothes.  
She hired out as a maid. Last Au-  
gust, according to police records, she  
led with \$1400 of her mistress's  
gowns. She went to the Baltimore  
registered as Lady Webster, and for a  
week met movie and stage agents,  
seeking to land a movie job.  
Though she may receive a suspended  
sentence, for the clothes have been  
recovered, she will have to face de-  
portation proceedings.

Notes Expected  
on Reparation  
Security Sale  
WASHINGTON, Oct. 10. (Exclusive).  
Important developments of a definite  
character are looked for in the near  
future in connection with the propo-  
sals to sell part of the 11,000,000-  
700 gold marks worth of German  
railway bonds which are held as se-  
curity for the payment of German  
reparations, and a considerable part  
of which, perhaps one-half of the is-  
sue, would have to be sold in the  
United States.  
The question of the sale of these  
bonds, it is asserted both at the State  
and Treasury Departments, has never  
been presented in any formal man-  
ner, either by the European govern-  
ments or by interested international  
bankers, to this government.  
The first formal presentation of  
this matter to the American govern-  
ment will be made, it is believed,  
through notes to be delivered anon-  
ymously in the usual diplomatic way by  
France, Italy and Belgium. The reason  
for this method of approach is due  
to the fact that the United States  
is one of the nations which, under  
the Dawes plan and the Paris  
agreement, would be affected by the  
sale of all or any part of the Ger-  
man Railway bonds.

PURCHASE OF YUMA  
UTILITY REPORTED  
YUMA (Ariz.), Oct. 10. (Exclusive).  
Sale of the Yuma Utilities Com-  
pany's property and local franchise to  
the Southern Sierras Power Company,  
from which the Yuma company has  
been getting its electric current, has  
been reported. San Diego financial  
interests, led by Leroy Wright, have  
formed the Yuma Trust and Holding  
Company, with \$1,000,000 capital. The  
incorporators, beside Mr. Wright, are  
S. L. Patterson and E. L. Brownstet-  
ter. Another Wright corporation, just  
formed, is the Yuma Mesa Grape  
Fruit Company with \$500,000 capital.

NEW LAMP HAS NO  
WICK OR CHIMNEY  
Most Brilliant Home Light Known  
—Costs One Cent a Night  
A new lamp which has no wick or  
chimney, yet gives the most power-  
ful home light in the world, is the  
latest achievement of The Sunbeam  
Safety Lamp Co., 891 Sunbeam Bldg.,  
Kansas City, Mo. This remarkable  
new lamp burns gas or electricity—  
gives more light than 300 candles, is  
ordinary lamp or 10 brilliant electric  
lights, and costs only one cent a  
night. A blessing to every home,  
especially on farms or in small towns.  
It is the ambition of the manufac-  
turers to have every home enjoy this  
pleasing, brilliant white light. They  
will send one of these new lamps on  
free trial to any reader of The Los  
Angeles Times who writes: "They  
want one person in each locality to  
whom they can refer new customers.  
Take advantage of this free offer.  
Write them today. Agents wanted."

MARIE VISITS  
ART GALLERY  
Queen Later Buffets Paris  
Auto Show Crowd  
Spends Time Mostly Looking  
at American Cars  
Princess Ileana Prefers  
Yachting Exhibition  
PARIS, Oct. 10. (P).—Sunday was  
hardly a day of rest for the active  
Queen of Rumania. The Rumanian  
Minister called at her hotel shortly  
before noon and Queen Marie went  
with him to visit the salon of the  
"French Palette," on one of the  
grand boulevards, to view some mod-  
ern paintings and other works of  
art.  
On this excursion the Queen's two  
ladies-in-waiting accompanied her,  
and she was recognized by the Sun-  
day strollers. Many were the com-  
ments on her striking beauty, regal  
bearing, friendly manner and attrac-  
tive clothes.  
While the Queen was inspecting the  
paintings, Princess Ileana, who has  
an ardent liking for yachting, went  
to the Salon Nautique, on the Seine,  
where a motorboat and yachting show  
is being held simultaneously with the  
annual automobile exhibition in the  
Grand Palais, only a few yards away.  
The young Princess was formally re-  
ceived by the president of the com-  
mittee and conducted around the ex-  
hibition. It was the first time since  
her arrival in Paris, however, that she  
had been welcomed formally as a Princess.  
Queen Marie was hosted at a family  
luncheon at the hotel. In the after-  
noon she went to the automobile  
show, and found the place packed  
with people, among whom were  
many with no particular interest,  
other than in seeing the Queen.  
Marie spent a considerable part of  
her visit in looking at American cars  
and remarked that she often won-  
dered how it must strike the eyes of  
Europeans, who are for the most part  
pedestrians, when they first enter the  
swirling traffic of a country where  
almost every family has its own auto-  
mobile.

### UNION LEADER IN PULPIT TALK

Detroit Church Opened to  
William Green

Council Joins Organized  
Labor in Meeting

Ministerial Alliance Will  
Hear Workers Today

DETROIT, Oct. 10. (AP)—Speakers for the American Federation of Labor, the Detroit Council of Churches and the Federal Council of Churches of Christ in America, joined today in cordial expressions of good will and fraternal understanding from the pulpit of the First Congregational Church here.

The large church auditorium was well filled, a number of delegates to the federation's annual convention, now in session here, being among the audience.

The meeting, arranged by officers of the Federal Council of Churches of Christ in America, and which was presided over by Dr. Lynn Harold Hough, minister of the Central Methodist Episcopal Church and president of the Detroit Council of Churches, was addressed in addition by William Green, president of the American Federation of Labor, Dr. Gustav A. Smith, pastor of the First Congregational Church, Rev. Reinhold Niebuhr of the Bethel Evangelical Church and Dr. Alva W. Taylor, national industrial secretary for the Disciples of Christ. The prayer was offered by the Rev. John McDowell, social service secretary for the Presbyterian Church in the United States of America, and the benediction pronounced by Dr. Frank Adams of the First Universalist Church of Detroit.

Representatives of other congregations were on the speakers' platform.

The meeting was one of eighteen conducted in Detroit today under the auspices of the Federal Council of Churches, sermons in all of which were devoted to the theme of the relations between labor and the church.

Six officers and delegates of the union convention were in various pulpits of the city.

At a special service in St. Agostinos Catholic Church, this morning, a large number of union delegates heard the sermon of Rev. Dr. John A. Ryan, secretary of the social action department, National Catholic Welfare Council.

John P. Frey, president of the Ohio State Federation of Labor, will speak at 11 o'clock tomorrow morning before the Detroit Ministerial Association in the general headquarters of the Detroit Y.M.C.A.

The mass meeting of the citizens

### FAMOUS CHEF IN AMERICA

Former Cook for Napoleon III  
to Introduce New Culinary  
Mixture

NEW YORK, Oct. 10. (AP)—A French chef who once cooked for emperors arrived on the steamship Berengaria to introduce in this country a cooking mixture containing 7 per cent alcohol, if the prohibition authorities will give their permission.

He is August Escott, now 80 years of age, who was chief chef to the Emperor Napoleon III, and who in 1913 prepared a dinner for the former Kaiser of Germany which won the latter's praise. On that occasion the Kaiser was aboard the Berengaria, then a German ship known as the Imperator.

Escott, at the First Congregational Church, was opened by Rev. Dr. Hough, who, in turn, presented Dr. Worth M. Tippy, executive secretary of the church council's industrial commission. Dr. Tippy explained that twenty-eight Protestant churches are affiliated with the council.

### Espee to Cut Rates Further to East Points

SAN FRANCISCO, Oct. 10. (AP)—The Southern Pacific Railroad Company announced here that the 1934 summer fares both east and west-bound will be the same as in 1933 except that fares will be approximately 85 cents to points east of Chicago, St. Louis, Memphis and New Orleans.

Tickets for westbound trips will be placed on sale May 15 to September 30. Eastbound tickets will be on sale from May 22 to September 30.

### RUMANIAN ARMY UNIT FACES COURT-MARTIAL

BUCHAREST, Oct. 10.—According to the newspaper, the second Rumanian army corps of 8000 Rumanian recruits failed to report for duty. They were court-martialed for mutiny, as it is obviously an organized movement.

### OIL INVENTIONS CASE CONTINUES

Four Large Companies Under  
Trust Law Attack

Action Aimed at Pooling of  
Process Patents

Experts Will Begin Defense  
Testimony Today

NEW YORK, Oct. 10. (AP)—The government's attack on the Standard Oil companies has no right to exact heavy penalties from smaller oil companies who have sought from them the right to use the process. It is expected that experts in the oil industry, offered as witnesses by the defendants, who begin their defense tomorrow, will occupy several weeks in their testimony.

The principal defendants who are called upon to meet the government's attack are the Standard Oil Company of Indiana, Standard Oil Company of New Jersey, the Texas Company and the Gasoline Products Company.

John W. Davis, former Democratic candidate for the Presidency, represents the Standard Oil Company of New Jersey and Ex-Gov. Miller is counsel for Joseph H. Adams, asserted inventor of the oil process under attack.

The government's case was begun in the northern district of Illinois June 24, 1924. The government charges that the oil companies have formed and operated a tremendous "patent pool" comprising a number of competing patents which by an elaborate cross-licensing arrangement are made available to those oil companies fortunate enough to be in the pool.

The price exacted of smaller companies for admission to the pool, according to the government's charges, includes the limitation of marketing territory, payment of large royalties to the Standard Oil Company of Indiana and the Texas Company and other large oil producing companies, and the admission for all time of the validity of patents involved.

FOUR COMPANIES INVOLVED  
The most spectacular of the government's charges is that Joseph H. Adams, asserted inventor of the basic idea of subjecting the oil to pressure, as well as heat, obtained his patents from the government's patent office through the filing of fraudulent affidavits. Testimony of government witnesses examined in New York last spring and cross-examined by Ex-Gov. Miller was said by government representatives to show that Adams was not the inventor of the idea. If this is so,

### FRENCH VETERANS IN DEFI MOTHER TO BE ESTATE EXECUTRIX

Right of Marie Calou to  
Handle Holloway Fortune  
of \$250,000 Upheld

ANNAPOLIS (Md.) Oct. 10. (AP)—Marie Calou, mother of Grace Suzanne Holloway, 13-year-old heir to the \$250,000 estate of her father, the late John E. Holloway, has been recognized by the Court of Appeals as the lawful executrix of the estate.

The decision reverses the original verdict of the Court of Appeals last July, which established the legitimacy of the child over the decision of the Circuit Court, but which denied the right of Marie Calou to administer the estate.

The Court of Appeals has overruled a motion for a reargument of the legitimacy decision introduced by the trustees of the estate in behalf of Mrs. Anne McLean Holloway, estranged wife, and Clarence L. Holloway of Baltimore, a brother, and Mrs. Anne Holloway Jones of New York, a sister.

Holloway lived in Baltimore, Reno, Nev., and in California with Marie Calou, whom he had met in Biarritz, France, after estrangement from his wife. The child was born in Reno, and legitimated under Nevada law.

### MEXICO PURCHASES COAST GUARD SHIPS

VERA CRUZ, Oct. 10. (Exclusive)—The Mexican government has acquired three new vessels which will be placed in coast-guard service, being manned by students from the Naval College at Vera Cruz. Early in 1927 the government anticipates the purchase of considerable new equipment to bring its naval force more up to date.

Woman-Handled  
Said the nurse: The new patient in Ward B is awfully good looking. "Yes," agreed the matron, "but don't wash his face. He's had that done by four nurses this morning."

More Expert with the Colors  
"Madge's portrait makes her prettier than she really is." "That's not surprising. The artist paints better than she does."—Boston Transcript.

### TEX RICKARD MARRIAGE IS CONFIRMED

Minister Says He United  
Sports Promoter, 54 Years  
of Age, and Girl of 24

LEWISBURG (W. Va.) Oct. 10. (AP)—George L. (Tex) Rickard, nationally known sports promoter, was married to Miss Maxine Hodges of New York here on Thursday, according to Rev. L. McF. Courtney, who last night said he had officiated at the wedding.

The minister's statement was made after Rickard had denied that the ceremony had been performed. Mr. Courtney, pastor of the "Old Stone" Presbyterian Church, said he performed the ceremony, an unostentatious one, at his home at noon Thursday. Records of the County Clerk revealed that a marriage license had been issued to Rickard and Miss Hodges on the same day. They gave their ages as 54 and 24 years, respectively.

Rickard, who is at a White Sulphur Springs hotel, near here, said he might have visited the minister on Thursday and might have made arrangements for his marriage some time within the next month. He insisted, however, that the wedding had not taken place.

**10 Years ahead  
in Business Opportunity**

Some progressive young business men put it—"I am ten years ahead of the Eastern fellows in opportunity in similar circumstances, because Los Angeles is destined to grow as no other American city can."

And he is right! Los Angeles is rapidly becoming the third national metropolis. The future of Los Angeles' commercial and industrial prosperity is without parallel.

In analyzing this situation, the Bureau of Power and Light is brought into focus. From the beginning, and rightly so, the Bureau has devoted its entire resources and organization toward building up the economic prosperity of this City. Bureau light and power are so dependable and economical that industry considers them an indispensable asset.

The Bureau is daily creating more jobs for more men.

**BUREAU of POWER and LIGHT**  
Operating the Electric Power and Light System for  
THE CITY OF LOS ANGELES

**YOU ARE INVITED.**

to take a trip with us in one of these big, comfortable, luxurious busses... delicious luncheon served... all FREE of cost or obligation.

RIDE in our new, luxurious busses on one of the most pleasant trips in Southern California. These busses have just been purchased (costing \$25,000 each) and are the last word in comfort and safety. One could scarcely ask for a more delightful way to travel.

Relax in the deep cushioned chair and drink in the splendors of Southern California's outdoors. We'll go out Hollywood Way... through Cahuenga Pass into the prosperous, healthful San Fernando Valley. Every minute will be an interesting one... holding new sights and new marvels of California's beautiful outdoors.

You will stop at Walnut Acre Farms... have the opportunity to see these fertile farms, planted with 3 year old Placencia Bud Walnut trees... see the Fur Rabbit colony... the long rows of rabbit hutches... the prize rabbits. See how big money can be made from a small outlay of cash. Whether you are a new arrival in Southern California or an established resident, you should take this enjoyable, educational trip.

Remember it is entirely FREE. You will be our guest and under no obligation. Phone TRinity 4811 for your reservation.

Now  
you can have a motor car!

How many times have you watched powerful, sleek motor cars hum by?—and promised yourself “some day I’ll have one, too!” That day for you has arrived! Now you can plan those merry trips—down to the ocean’s edge—up among towering pines—off into “wide open spaces.” Living in this country is incomplete without a motor car—and now you can LIVE! Now you can WIN a motor car FREE by entering the

LOS ANGELES TIMES  
\$50,000 Automobile and  
Prize Campaign

Truly an amazing offer! Thirty of the finest cars built—every one the embodiment of comfort, beauty, distinction, power, speed—selected by The Times as prizes for men and women who enter this campaign. Not one cent of cost to you. Simply induce as many of your friends and acquaintances as possible to become regular readers of The Times. For every subscription you get, you will be credited with a stipulated number of votes. By accumulating the highest number of votes during this campaign, you will receive the beautiful \$5247 Lincoln Sedan pictured on the left. Should you be second-highest in the number of votes, that \$3655 Pierce-Arrow is yours. And so on down the list. A multitude of other prizes will also be distributed—radio sets—cash prizes—and cash commissions—so you are bound to win something if you try.

It doesn't matter whether you live in the city, in a small town, or out in the country—YOU CAN WIN. Any man or woman over 16 years old is eligible. Except Times employees. You have the same opportunity as others to win one of the highest-priced cars in the list—and some of the cars MUST be won right in your own neighborhood. Make it certain that you will be among the lucky ones, by sending in your nomination at once. Use the blank below. It entitles you to 12,000 free votes as a starter, and brings you all necessary information and supplies, with valuable suggestions how to get subscriptions among your friends, neighbors and acquaintances. Your spare time is enough. The campaign lasts only a few short weeks, and it will be lots of fun. Opportunities such as this are rare. Let it bring you the good fortune you've wanted!

If it is impossible for you to enter the campaign, you are invited to nominate someone you know, who would like to own one of these thirty fine motor cars. Clip out and mail the nomination blank now. (Callers are welcome at Campaign Headquarters, second floor, Los Angeles Times Building, First and Broadway, Los Angeles. Telephone MEtropolitan 0700.

## High Blood Pressure

High blood pressure is a common ailment, and one that should be treated as soon as it is discovered. It is a condition that can lead to serious complications if not properly managed. The best way to deal with it is to consult a doctor who can prescribe the appropriate treatment.

There are many causes for high blood pressure, and it can be difficult to pinpoint the exact reason for it. However, lifestyle changes such as a healthy diet and regular exercise can help to lower blood pressure levels.

It is important to monitor your blood pressure regularly, especially if you have a family history of the condition. This will help you to catch any changes early and take action as needed.

Remember, high blood pressure is a silent killer, and it's crucial to take it seriously. Don't wait until it's too late to seek help.

For more information on how to manage high blood pressure, consult your doctor or a healthcare professional.

Stay healthy and keep your blood pressure under control.

## H.A.C. SOCCER ELEVEN WINS

Hollywood Squad Cleans Up on Long Beach Team

Sons of St. George Bow to Magyars at Loyola

Scots Beat Vikings in Easy Style at Seaside

Taking a lead of three goals early in the first half of the game, Hollywood footballers defeated Long Beach, 3 to 2, in the second half of the twin soccer ball at Loyola Field yesterday afternoon. The margin on the whole is rather lopsided, as the seashore showed flashes of football which might well have ended more satisfactorily.

In their attack the winners had a decided edge. Their first tallies came in rapid succession and were all scored by Fred Parkinson, the flashy center forward. While Parkinson goes the credit for the goals, it was Jimmie Elder who paved the way for the scoring. His display on the right wing was marvellous. He appeared at top form, and his touch line runs and crosses pulled the spectators to their feet time and again. Charlie Collier, who paired with Elder on the right wing, was equally aggressive and aided greatly in the win for Hollywood. Cook scored for Long Beach.

Sons of St. George vanquished the Magyars, 3 to 2, in a thrilling game. The exchange was exceptionally even and fast and the Magyars deserved no worse fate than a division of the points. It was the first appearance of the Hungarians in the loop and they justified their inclusion into fast company.

At Long Beach the Scots defeated the Vikings, 4 to 0.

NO WONDER

The Women's Swimming Association of New York, whose members hold nearly all of the world's swimming records, is the largest organization of the kind in the world.

## BEAR GRIDDERS WORKING LATE

BERKELEY, Oct. 10. (Exclusive)—Sundown has ceased to be the end of the daily practice for the Bruin footballers.

With eight powerful searchlights showing long white beams upon the Memorial Stadium grid, the sun may sink in the West and the stars hide behind gloomy clouds, for all that the Bear coaches give a whoop.

The fleet of searchlights is operated by sophomore managers. The lights may be focused on any part of the field. They are so powerful that it has not been found necessary to use the white "ghost" piskin thus far.

## SOUTHERN CALIFORNIA'S NET TOURNAMENT AFTER MEXICAN PLAY

Because the Mexican city championships interfered, A. B. C. Gray, manager of the Los Angeles Tennis Club, postponed the annual Southern California tennis championships until the 7th of November. The Mexican tournament will get under way the 23rd inst., and will include a famous entry list of players, among whom are Gerald Stratford, Robert Kinsey and Little Bill Johnston.

Officials of the local club originally scheduled the southern tournament for the 18th inst., but the huge number of local and international stars planning to compete at Mexico caused the postponement of the affair. It is the plan of Gray to invite here for the local event all of the famous court warriors of the sport attending the Mexican tournament.

Last year William Fildes and Alfred Chippin were guests of the club. This season the officials sent, each Maury McLoughlin to invite here the French Davis Cup duo, Rene La Coite and Rene Borotra, while Dick Williams, Bill Johnston, Vinny Richards and numerous others were also invited to compete in this city. The French duo were forced to return home by government orders, while Richards recently turned professional with C. G. Fyle's troupe of touring stars.

The remaining list of national ranking stars will compete at Mexico City next week-end, and Gray expects to have this group play here in the Southern California events. Northern California will send a clever troupe of players to invade the southern territory also.

BADGERS ARE BEST IN RACINE CONTEST

RACINE (Wis.) Oct. 10. (Exclusive)—Milwaukee's Badgers defeated the Racine Tornadoes in a National League football game here today, 13 to 2. The visitors easily overcame a two-point safety lead in the first quarter to win. Trick plays, featuring Halikowski, Abell and Orsoll accounted for many of Milwaukee's long gains, while Heimach was usually on the job in a pinch, smashing through the line for timely gains. Heimach scored Milwaukee's first touchdown in the second quarter and Bryan the other in the last frame. Delweg's play at end stood out. McIlwain and Kernwein represented Racine's best gains while Barr's passing failed of usual results.

## Duck Hunters in Game Quest Next Saturday

The duck season in Southern California opens next Saturday and from the reports that have come into the B. H. Dye Company the season should be one of the best in years. The reports are unanimous in saying that thousands of ducks have already landed in Southern California, due to early cold weather in the north.

Last week, Pete Peterson, outdoor authority of the B. H. Dye Company in company with Outdoor Franklin, Bullock road scout for the Howard Automobile Company, left on a scouting trip through Imperial Valley and Salton Sea districts.

For several weeks, the reports that have reached Dye's indicate that good duck shooting can be expected around Big Bear Lake and at Baldwin Lake, also in the Kern county section.

Before leaving Peterson announced that next Friday, also would see the closing of the deer season. The Dye Company has given hunters who bag a deer the last day of the season, five days grace to bring the deer in or send in affidavits after the season closes to register on the Dye trophy, up for the heaviest deer of the season.

## Would Open Reservoirs to Fishermen

Jack Hines, secretary of the Citizens' Fish and Game Conservation Committee, announces that the organization has a plan which it would like to present to the proper authorities, which would make feasible the opening of the many reservoirs for fishing and hunting.

Through a new ruling by the California State Fish and Game Commission it is now possible to appoint citizens as 51-a-year game wardens and should the city powers decide to open the reservoirs to hunting or fishing or both, the citizens' conservation committee would have one or more 51-a-year wardens located at each reservoir on shooting days during the duck season to see that every hunter observes the law of sanitation, i.e., that no paper, food, etc., is thrown into the water and that during the fishing season, one that only artificial bait or lure, such as flies, plugs, spinners, etc., are used and to prohibit the angler from bringing in live minnows, salmon eggs and chum of all kinds, therefore making it impossible to pollute the water.

## TROJAN WEAVES

The Mussolini of fabrics...hardy but handsome

Here is a new long-mileage woolen, combining rare beauty with extraordinary wearing quality. Trojan Weave is a study in contrasts. One of the handsomest woolens you ever saw. But beneath its silky and lustrous surface is a constitution of chilled steel.

A glutton for punishment. A two-fisted stalwart...but with the elegance of the drawing-room, the Beau Gallant of fabrics.

TROJAN WEAVES are for the man who wants heavy-service from his clothes...without sacrificing rich, soft texture, smart style, fashionable coloring and design.

TROJAN WEAVES are carried in the leading Kuppenheimer Young Men's Models for Fall: The modish Mayfair, the verveful Standish, the business man's Baldwin...in the new Chutney browns and Banff blues...and in the latest weaves and patterns.

The new MAYFAIR...in Chutney browns

Brown's in town again—right up among the socially elect—the most fashionable color of the new Fall season.

But the Bon Ton Browns of the season are the Kuppenheimer Chutney Browns—ranging from dark mission browns to copper and the bronze browns—with many pleasing gradations of tan shades in between.

When you add the relish of Chutney Brown to the smart Mayfair young man's sack style, you get the ultimate in good taste.

## Shocklev Cops Golf Prize at El Caballero

Fifty players took off in the qualifying round of this annual fall tournament of El Caballero Country Club yesterday.

Clarence Shocklev, with a gross score of 82, led the field, with Harry Blythe close up with an 83, and Harry Baker within striking distance with 85 to his credit.

The best gross scores made were:

Match play in the tournament will begin next week.

In the sweepstakes, Clarence Shocklev and A. E. Halsey tied with net scores of 74. Other high scores were:

Harry Baker... 77  
George Cresson... 77  
W. M. Griffin... 77

CHICAGO CARDINALS TAKE FOURTH CLASH

GREEN BAY (Wis.) Oct. 10. (Exclusive)—Red Dunn's educated toe gave the Chicago Cardinals enough margin to trim the Green Bay Packers, 13 to 7, for the fourth straight National Professional Football League victory for the Cards this season. It was the first defeat the Packers ever suffered on their own gridiron.

A pass, Dunn to McDonnell, accounted for the first touchdown early in the second period. The margin of the Cardinals at the half, Frances and end runs put the Cardinals within striking distance in the third period, but Green Bay braced and Dunn kicked a field goal from the 20-yard line, giving the Cardinals a 10-to-0 lead. Dunn intercepted a Green Bay pass in the final quarter on the Packers' 24-yard line, and after failing to go beyond the 15-yard line, kicked another field goal, giving the Cardinals their victory.

BEAR STUDENTS MAKE GOOD AT MANLY ART

BERKELEY, Oct. 10. (Exclusive)—Sammy Gold and Bob Griffin are at present showing the most promise among University of California students trying their fortune in the aggressive art of boxing. Coach Stanley Jones is well pleased with the steady advance of his punch and duck artists, particularly the two mentioned results. Gold, who is captain of the Bruin boxing squad, is brother of the professionally renowned Jimmy Duffy.

# NEWS OF SOUTHERN COUNTIES

## PAY TRIBUTE TO COLLEGE

Pomona Alumni Celebrates Charter Day

Meeting in All Cities of Southland

Noted Speakers to Address Gatherings

CLAREMONT, Oct. 10.—More than 3000 Pomona College alumni living in all parts of the world will celebrate the thirty-ninth anniversary of the founding of Pomona College on October 14, 1895, with appropriate ceremonies at the reading of messages from President James A. Baldwin and Dr. Charles M. Burroughs, president of the Pomona College.

The annual founders' day will be unique in college history, as it is also the first anniversary of the incorporation of the Claremont Colleges, which was chartered by the State of California at Sacramento on October 18, 1891.

The annual founders' day will be unique in college history, as it is also the first anniversary of the incorporation of the Claremont Colleges, which was chartered by the State of California at Sacramento on October 18, 1891.

Alumni in Southern California will observe the charter day at Ontario, Los Angeles, Pasadena, Santa Ana, San Bernardino, San Diego, Fresno and Whittier. Other observances will be held at Chicago, Cambridge, Mass.; Berkeley, New York, Toronto, San Francisco, Imperial Valley and Corvallis, Ore.

The Campus Club, whose members are drawn from Pomona Valley and Ontario and Upland, has scheduled its meetings at Chaffey Union High School. The annual dinner of the college club which has been formed at Pasadena in the last two months will be held at the Chaffey Union High School.

Speakers have been assigned by Pomona College to the clubs as follows: Pasadena, Dean Robert J. Jacques and Prof. Frank P. Brinkley; Chaffey Union High School, Dean Robert J. Jacques and Prof. Frank P. Brinkley; Chaffey Union High School, Dean Robert J. Jacques and Prof. Frank P. Brinkley.

## Government May Erect Building at Long Beach

LONG BEACH, Oct. 10.—A new Federal building and postoffice for Long Beach appears as an early probability if a suitable site for it is forthcoming soon, it was indicated here today, following a visit by the Interior Department's Public Buildings Administration to the city.

A site at the northeast corner of Third street and Alameda avenue, owned by the government, has been divided into eight divisions, each having a certain group of professional or business lines to canvas. One new feature of the drive, held of course in the city, is the "retail" box. The name of any prospective member, who would be the "retail" box, is to be placed in a box for other divisions to take, if any of their members believe they can change the decision.

Mr. Newman is one of a commission of five Federal officials assigned to prepare recommendations for a new Federal building, the others on the commission being Philip Mullin, construction engineer for the Treasury Department, and F. S. Gould of the Postoffice Department.

## PLAN GREAT HI-JINKS AT HALLOWEEN PARTY

ANAHEIM, Oct. 10.—With committee appointments complete, the Anaheim Merchants' and Manufacturers' Association has settled down to formation of its program for the annual Halloween party to be staged on the city streets the evening of the 31st inst.

The program includes music, street dancing and a costume parade. It is planned that the evening shall be given over to hillside sports and a parade to endger good fellowship, according to O. J. Renner, president. There will be a closed and business will be at a complete halt.

Last year the affair drew fully 15,000 to the city. It is expected that it will attract 20,000 persons this year, Mayor Carl Leonard will be grand marshal of the parade.

## MARKET ASSOCIATION TO MEET IN VISALIA

BAKERSFIELD, Oct. 10.—Annual meeting of the California Farm Bureau Marketing Association directors will be held in Visalia on October 14, according to announcement made by D. H. Bitter, Bakersfield, manager of the association. The association handles more than \$600,000 a year business in long sales made in the San Joaquin Valley.

The prices for hogs during the past year have been higher than in 1933, and the volume of business shows an increase, said the manager yesterday.

Directors of the association are from seven San Joaquin Valley counties, it was stated.

## CLUB ELECTS OFFICERS

SAN DIMAS, Oct. 10.—Mrs. George Ferguson has been elected president of the Wm. A. Day Afternoon Club to succeed Mrs. Harry Walker. Chairman for the coming year have been announced as follows: Emergency committee, Mrs. Harry Gilman; finance committee, Mrs. G. D. Tanager; membership committee, Mrs. Frank Walker; rummage sale, Mrs. Harry Walker; entertainment committee, Mrs. Ed Busby.

## WIN ONE, LOSE ANOTHER

Fight for Highways Through Baldwin Estate Meets With New Opposition

ARCADIA, Oct. 10.—The much-battled project to open a system of major highways through the famous E. J. (Lucky) Baldwin estate has overcome one serious obstacle and immediately encountered another.

The Arcadia City Trustees received approval of the proposed plans for Mrs. Anita Baldwin and, at the same time, were advised of uncompromising objection by Mrs. Clara Baldwin Blocker, another heir to the estate.

The highway-opening program, which has been under consideration for three years, included connection of Colorado avenue, Pasadena, with Orange avenue in Arcadia and Montevia, extension of Baldwin avenue from Huntington Drive north to both hills Boulevard and Sierra Madre, and opening of Huntington Drive, on both sides of the Pacific Electric tracks, around the north side of the Rose Field balloon school.

At the present time, Huntington Drive borders the south and east sides of Rose Field with two right-angle turns, which would be eliminated by the new plan. Mrs. Blocker's objection is to the proposed road along the south side of the Pacific Electric tracks, declaring that it would be antagonistic to her interests.

Having cleared away scores of stumbling blocks in the last few years, City Trustees V. Schornberber, Charles Hawks and J. P. Williams have been appointed to interview Mrs. Blocker and reach some agreement before the next Council meeting on the 21st inst.

Mrs. Anita Baldwin, who has spent the summer in Paris, is expected home, probably within two weeks, city officials were advised.

## LIBRARY TRUSTEES QUIT JOB

Board Members Bring to End Quarrel of Long Standing With Council

ARCADIA, Oct. 10.—Two years of friction between the City Council and the Public Library Board of Trustees was climaxed yesterday when all five members of the board tendered their resignations to Mayor J. W. R. Williams.

The resignations are effective November 1. Librarian C. F. Woods also is expected to resign, although he has made no formal statement as yet.

Differences between the board and the Council began when a number of books selected by the trustees were branded by members of the Council as "obscene."

Between the two bodies was precipitated in September when the Council rejected the library tax rate for the coming year from 13 cents to 15 cents.

The letter of resignation was signed by Chairman C. L. McFarlane and Trustees Harry C. Chase, Louise Harvey Clark, George A. Sarau and Richard Best.

## Soon to Ship First Navels From Tulare

PORTERVILLE, Oct. 10.—First shipments of havel oranges for the late season are expected from Porterville at an early date. Some early shipments were made last week in October, although movement on a commercial scale is not usually started until during the first two weeks of November.

Frank E. Ritchie, manager for the Mutual Orange Distributors' house in this district, anticipates a season generally appears considerably advanced.

After all lots opened for the auction are disposed of the sale will be closed on the 11th inst. at 10 o'clock.

After all lots opened for the auction are disposed of the sale will be closed on the 11th inst. at 10 o'clock.

## MEMBERSHIP DRIVE

Monrovia Chamber of Commerce Out After Supporters

MONROVIA, Oct. 10.—Launching an intensive three-day membership drive, a large corps of Chamber of Commerce workers will receive final instructions at a noon luncheon to be held at the Astor Hotel.

The chamber personnel has been divided into eight divisions, each having a certain group of professional or business lines to canvas.

One new feature of the drive, held of course in the city, is the "retail" box. The name of any prospective member, who would be the "retail" box, is to be placed in a box for other divisions to take, if any of their members believe they can change the decision.

## RUIN CUPID'S PLAN

Bride-to-be Returned by Officers to Tulare House

HANFORD, Oct. 10.—A budding romance was nipped in this city yesterday and a young lady was returned to her home by officers of a deputy sheriff and the jail matron. The would-be bride and bridegroom were held in custody for some time.

The young man was accompanied by his mother and two younger sisters. The sheriff's office was notified of the application for the license and, being also apprised of the notice from Tulare, the parties of the clerk's office were invited by Deputy Sheriff Walker to the County Jail, and from there the young lady was taken back to Tulare.

## BURGLARS NEED PLENTY OF ROOM

ALHAMBRA, Oct. 10.—Burglars who broke into the home of Homer Hickman, 700 North Curtis street, last night, gained entrance by removing the door bolts were taken out.

The marauders were only a few minutes ahead of the owner, as Hickman returned to find many articles scattered on the floor and suit cases packed ready to be taken away. Three gold watches were stolen, Hickman reported to the police.

## TEACHER LEAVES HOSPITAL

HANFORD, Oct. 10.—Mrs. Clinton Crow, musical director of the Hanford High School, who was severely injured in an automobile accident at Kingsburg, Fresno county, will be able to leave the hospital the first of next week, but will not be able to resume her duties at the school, having to wear a cast on her back for some time to come.

## DISTRICT MEETING

CORCORAN, Oct. 10.—A convention of the Knights of Pythias lodge of the Central San Joaquin Valley will be held here Tuesday, the 26th inst. District Deputy Grand Chancellor C. F. Bishop has been invited to be the speaker of the occasion. The evening lodge making up the convention district, are those of Corcoran, Hanford, Lindsay, Coalinga, Visalia, Bakersfield and Porterville.

## BOYS WIN BY A WHISKER

Start Fad Girls Are Unable to Follow

SANTA ANA, Oct. 10.—Students at the Santa Ana High School have been enjoying a hectic social season this year, with the girls wearing sport skirts with hip pockets and the boys wearing loud suspenders, but three Santa Ana youths found one mode which they thought was a little different.

Among the leading exponents of the hirsute fad are Stanislaus Dorsey, Randolph Bell and Rudolph Hono. In fact, these three "whiskers" started the fashion and it is rapidly becoming popular among the young men on the Santa Ana High School campus.

As yet no girl has sprouted a mustache, leaving the boys to win by a whisker.

The remains are those of a man, it was determined by the finding of a man's shoe and clothes buttons beside the bones. All other traces of clothing have disappeared and part of the skull and numerous bones have disappeared in the years that intervened between the death and its discovery today.

Joe Maxwell, employee of the Clay center P. Day Corporation which is building a new road through the canyon, found the gruesome evidence of the old crime and called the Pasadena police. Detective Lieutenants Kathryn and Decker went to the spot and brought the skeleton to the police station.

Among the principal speakers will be Dr. A. H. Hutchinson, moderator of the general assembly; Dr. G. E. Raitt, synod superintendent of mission; Rev. J. A. Campbell, moderator of the conference for clergy laymen and women will be held, respectively, by Rev. John Calhoun, B. P. McLean and Mrs. A. H. Brewster, while the following have been designated as leaders of the assembly: Rev. E. L. Vochila, valuation evangelist; Rev. J. A. Campbell.

The synod will be adjourned Thursday night following a praise service.

## RESTRICT ATTENDANCE AT PARK HIGH SCHOOL

HUNTINGTON PARK, Oct. 10.—All applications from students residing outside the Huntington Park Union High School district will be desired to attend the local high school, will hereafter have to come before the Board of School Trustees, this action being taken by resolution of the board.

Future expansion is already being discussed by the trustees, who are planning to build a new high school building to accommodate the increasing enrollment on the local district and students outside will be admitted only in extreme cases.

The first four stories of the eight-story beach home have been erected, and officials expect to have the building, with the exception of sleeping quarters on the upper floor, completed before the first of the year.

## TO MAKE BOWL POPULAR

Pasadena Officials to Seek Athletic Attraction for Famous Stadium

PASADENA, Oct. 10.—As a result of a conference between City Manager R. V. Orban and Harlan W. Hall, secretary of the Tournament of Roses Association, plans are being laid for greater popularization of Pasadena's Rose Bowl, the famous outdoor amphitheater in the Arroyo Seco, and for making it a Southern California center of sports and pageants during all the year.

At present, the spacious stadium, which seats 82,000 in a setting of remarkable natural beauty, is used only for the annual East-West football game on New Year's Day, for the commencement exercises of Pasadena High School, a Fourth of July fireworks display, an annual Astoria Day football game and Easter morning sunrise service. With the exception of the Rose Bowl, the stadium is at great cost and by concerted community effort, like the year around.

Mr. Hall has persuaded the city to make its part of collecting 10 per cent of the gross receipts at any event in the stadium, and all that will be required of Pasadena is that they leave the grounds in good condition.

As secretary of the tournament association, Mr. Hall will undertake the scheduling of events in the stadium, subject to the approval of the City Manager, High School and college football games, track meets, baseball games and other sporting events as he may deem desirable.

Mr. Hall will continue this work after the Tournament of Roses Association meets in North Fair Oaks, California, in November, and he can arrange with one of the major or minor league baseball teams to use the bowl for spring training next year.

The United States Marshall is still in charge of the craft. The partners have reached a reconciliation and are endeavoring to straighten out the tangles which surround the boat, but so far they have not succeeded. They have creditors to satisfy, a deposit of \$10,000 to be made to the United States Marshall to dispose of, and the city to satisfy before they can again use the bowl for spring training.

The boy was rushed to the Emergency Hospital and then to the Pasadena Hospital for an operation to remove the bullet. The father, A. Rose, who owned the revolver, had hidden it and was charged with the fact that the boys had found it.

The City Council has received a letter from Sheriff Trager pleading for the disposal of the city government the airplane squadron of the Sheriff's office to assist in enforcing Los Angeles ordinances requiring the licensing of airplanes and pilots and providing for the safety of flying.

The county, Sheriff Trager said, has in its service five planes and pilots who are competent to handle the job. He said that the city should consider the purchase of a few more planes and pilots to handle the job.

The City Engineer Shaw has reported to the City Council that the estimated cost of the proposed complete main intercepting and tributary sewers for the San Fernando Valley section of the city is \$1,028,000.

This proposed system would link this part of the city with the main outfall sewer from the city to the sea. The City Engineer recommended that the time arrived for starting under way a sewer system for the San Fernando Valley the part of the city main sewer to Owensmouth be financed by a bond issue.

# CHEERFUL CHAFF

BY TIMES READERS

WRITE FOR THE "MOVIES" AND WIN CASH PRIZES  
The Los Angeles Times publishes a popular feature called "Cheerful Chaff," consisting of the favorite best jokes submitted weekly by readers. Twelve of these are awarded each week, the names and addresses of winners, together with other winning jokes, appearing on the cover.

Everyone is invited to send in jokes. No formal letter is necessary. Just let your joke come in the form of a note, with your name and address, and mail to "Cheerful Chaff Editor," Los Angeles Times. Jokes for the cover must not exceed thirty words.

Meritorious jokes too long or otherwise not adapted for screen use, are awarded a place of honor on the "Times" comic page, receiving a copy of acknowledgment.

THEATERS SHOWING "CHEERFUL CHAFF"

BUENOS AIRES (first run) Palace at Santa Monica  
APOLLO, Hollywood  
CALIFORNIA, Huntington Park  
ALHAMBRA, 1711 E. Colorado  
HOLLYWOOD, 1244 Sunset Blvd.  
OLYMPIA, 1244 First Street

LINCOLN, Glendale  
ROOSEVELT, San Fernando  
WILSHIRE, 1211 E. Ventura  
CARILLON, San Pedro, Cal.  
TELESCOPE, Pasadena  
REX, Burbank  
MISSION, Riverside, Cal.

Mandy (at sitting station): Say, Rastan, get some of that "mooder" gas we saw on the sign. Since we left home we ain't done nothing but "mooder" gas.

O. A. Ward, Corona, Cal.

Uncle Sam (reading aloud sign): Johnson's Shirt Store.  
Aunt Sam (sitting next to him): How do you suppose he got it?

Mrs. Caroline Spencer, 1828 One Hundred and Sixth Avenue, Santa Monica, Cal.

A mountaineer led his overgrown son into a country school-house. This here boy's arter learnin' what's yer bill o' fare?

"We teach arithmetic, algebra, trigonometry, try."

"That'll do, lead him up with trigonometry. He's the only poofy sort in the family."

Charles D. Martin, 101 San Dimas Avenue, San Dimas, Cal.

Elevator Man: Third floor. Here you are, daughter.

Girl: But you're not my father.

Elevator Man: I brought you up, didn't I?

John Hammer, 127 South Larchmont, Los Angeles, Cal.

A western evangelist made a practice of painting religious lines on rocks and fences along public roads.

One man: What will you do when you die?

An advertising man came and painted under it: Use Delta Oil. Good for burns.

Clara Smith, 226 South Whittier Avenue, Whittier, Cal.

Dutchman, finding a couple of pieces of solder in a can of solder: Do they shoot these little boys?

Angie W. MacLaughlin, 3144 Kerckhoff Avenue, San Pedro, Cal.

## THE GUMPS

Opened by Mistake

I'LL JUST BET YOU THIS IS THE LITTLE NOTE FROM THE DRUG STORE PEOPLE SAYING THEY WANT THAT CORNER ACROSS FROM THE POST OFFICE. AND I'LL JUST BET YOU THERE IS A FAT LITTLE CHECK IN THERE WAITING TO STEP OUT AND SAY, "GOOD-MORNING MR GUMP."

GOSH, IT'S FROM THE OLD SHYLOCK. HE WRITES TO REMIND ME THAT MY NOTE FOR \$50,000, WITH INTEREST IS DUE OCTOBER THE 14TH AND WILL APPRECIATE A CHECK ON THAT DATE. I'LL PHONE THAT OLD BIRD AND LET HIM KNOW THAT I HAVE A CONSCIENCE AND A CALENDAR. YOU DON'T HAVE TO REMIND A FELLOW THAT HE HAS A BLACK EYE.

CALLING MY ATTENTION TO NOTE IS JUST LIKE A JAILER LETTING A CONVICT KNOW THAT THERE IS A BALL AND CHAIN FASTENED TO HIS ANKLE.

## GASOLINE ALLEY

Now For a Framed Motto: There's No Place Like Home

NOW YOUNG FELLA, YOU RUN TO BED AND I'LL BE UP AND SEE YOU IN A LITTLE WHILE.

GOLLY PHYLLIS, THESE EVENINGS ARE PERFECT I USED TO WONDER WHAT TO DO AFTER DINNER BUT NOW I'M ABSOLUTELY CONTENTED TO STAY RIGHT HERE.

I THINK I SHALL START OUT AND DREAM AND TRY TO DERELIQUISH ALL BACHELORS TO GET MARRIED.

BUT JUST SUPPOSE ALL THE BACHELORS WOULD DO IT AS A RESULT, SOME OF THEM MIGHT NOT BE HAPPY AND THEN YOU'D BE BLAMED FOR IT ALL.

THAT'S RIGHT. I FORGOT THAT THERE'S ONLY ONE WOMAN IN THE WORLD LIKE YOU AND I GOT HER. I GUESS YOU'RE RIGHT.

## Snapshots of a Man and a Crowd

By Guyas Williams

WALKS DOWN STREET. SEES CROWD ON OPPOSITE SIDE.

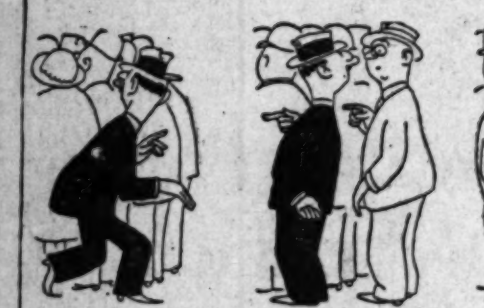

HURRIES OVER, TRIES TO FIND A PLACE WHERE HE CAN SEE WHAT'S HAPPENING.

ASKS MAN WHAT'S THE TROUBLE, IS ANYBODY HURT, IS IT AN ACCIDENT?

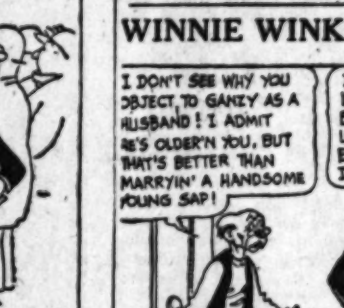

MAN SAYS HE DOESN'T KNOW, HE CAN'T SEE, AND TURNS BACK.

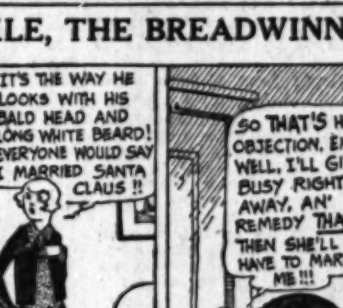

CIRCLES CROWD TRYING TO FIND BETTER Vantage POINT.

IS ABOUT TO ASK WELL-INFORMED LOOKING MAN, WHEN WELL-INFORMED LOOKING MAN ASKS HIM WHAT THE TROUBLE IS, IS ANYBODY HURT?

GETS DESPERATE AND ELBOWS WAY IN.

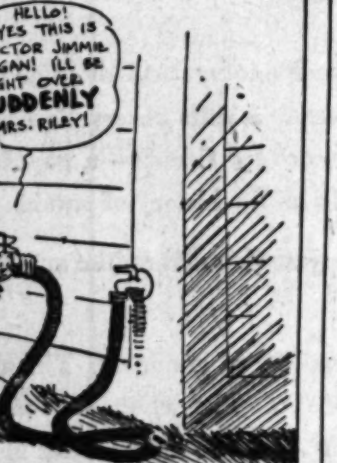

FINDS MAN DEMONSTRATING CONVERTIBLE COLLAR BUTTON. ELBOWS WAY OUT AND WALKS ON.

by New York Men  
Old Placer Near Gila City to  
Use Modern Dredge

By Sidney  
TUMA (Ariz.) Oct. 10. (Exclusive)  
With cooler weather, mining men  
again are working on the desert  
areas of southwestern Arizona.  
In the Kofa section, the Kofa Queen  
and a second group, both adjoining  
the famous King of Arizona property,  
have been taken under option by  
Kirk & Co. of New York from W. J.  
Jensen. The Kofa Queen property  
is a heavily wooded, covered by a  
Bernardino company, with A. B.  
Jensen in charge, is planning  
construction of a mine to handle the  
lower-grade ore. The new Southern  
Pacific main line, crossing the Gila  
River at Williams, will be the  
main line to the district, which  
will be enabled to ship good ore  
running as low as \$10 a ton.  
Place ground near Gila City, three  
miles west of Dome, that was worked  
several years before the Civil War,  
now is to be handled by means of  
modern dredge and sluice equipment,  
to be installed by the Schuchman  
company of Los Angeles. The property  
is owned by McPhaul & Palm,  
and has been taken under a royalty  
lease for ten years. Pay dirt is said  
to be on the surface, but to continue  
to bedrock, at about thirty feet,  
with betterment of value at depth.  
The water supply is declared ample,  
secured from wells.  
New activity also is known in the  
old Kofa silver district, near the  
Colorado River, thirty miles to the  
northwest, where ore shipments  
have been made for several years.  
One from several recent discoveries  
is reported to sample from \$12 to \$20  
a ton.

## EXPORTS TOUCH HIGH MARK

Forty Oil Tankers Take 2,760,392 Barrels From  
Local Port During Past Week

An unusually high mark was touched last week at Los Angeles Harbor  
in the shipment of Southern California petroleum products to world mar-  
kets. The combined shipments, taken by forty tankers, totaled 2,760,392  
barrels, and ranged nearly 800,000 barrels higher than the bulk petroleum  
exports of the previous week.

A feature of the week's business  
was an extraordinarily heavy movement  
of fuel oil, the total being  
1,198,791 barrels, which afforded con-  
siderable relief to producing com-  
panies which have for about two  
years had their tank farms over-  
loaded with heavy crude of this type. The  
Pacific foreign trade loaded up with  
more than 600,000 barrels of fuel oil  
of various grades, totaling 645,014 barrels  
of petroleum which included 350,000 barrels  
of crude, 148,189 barrels of fuel, 171,000  
barrels of gas and 77,825 barrels  
of kerosene. The Atlantic foreign  
trade took 535,543 barrels, embracing  
161,151 barrels of fuel and 192,392  
barrels of gas.

Pacific domestic requirements took  
1,000,518 barrels, including 563,000  
barrels of crude, 312,822 barrels  
of fuel and 81,333 barrels of gas. Pa-  
cific foreign requirements took 728,000  
barrels, including 348,000 barrels  
of fuel, 128,338 barrels of kerosene  
and 56,837 barrels of gas. The  
shipments for the week were as follows:

PACIFIC DOMESTIC  
Lube to Seattle with 12,000 barrels of fuel  
for Standard Oil Company.  
J. A. Moffat to Portland with 6,500 barrels  
of fuel for Standard Oil Company.  
B. H. Smith to Seattle with 6,500 barrels  
of fuel for Standard Oil Company.  
B. H. Smith to Seattle with 6,500 barrels  
of fuel for Standard Oil Company.  
B. H. Smith to Seattle with 6,500 barrels  
of fuel for Standard Oil Company.  
B. H. Smith to Seattle with 6,500 barrels  
of fuel for Standard Oil Company.

ARROYO GRANDE, Oct. 10. (Ex-  
clusive)—The test well now being  
drilled just north of the city limits  
by the Arroyo Grande Petroleum  
Company, Inc., is in brown shale at  
3940 feet, having been delayed sev-  
eral weeks by lost under-reamer lugs,  
the hole now being clear.  
The test had been better than that  
of San Luis Obispo county has an  
abundance of salt water, which  
is difficult to control, but since a  
perfect shut-off at 3500 feet not a  
drop of salt water has appeared in  
this prospect well, all strata being  
free from water.

The Arroyo Grande company has  
started a light rotary rig to drill  
about 1000 feet get a line on cer-  
tain shale underlying its 1400-acre  
lease and will drill two of these test  
holes for correlation data, according  
to General Manager D. Adams, who  
has lived on the lease two years and  
discovered oil operations. Nearly two  
years ago the company sold twenty-  
five acres near the well for \$10,000  
and has just bought it back for \$200,000  
because of showings in the drilling well.

The Elberta Oil and Gas Company,  
drilling about three miles north of  
the Arroyo Grande's Mohawk well, is  
negotiating with Los Angeles oper-  
ations to have its prospect well drilled  
deeper from present depth of 2000  
feet, the company holding 700 acres  
of leases there.

Located twenty miles north of the  
Santa Maria oil field, the Arroyo  
Grande sector of San Luis Obispo  
county shows the same structural  
and stratification conditions as are  
found in the north part of Santa  
Barbara county, including depth of  
the shale and sands.

MIAMI (Ariz.) Oct. 10. (Exclusive)  
Arizona's copper output is to be in-  
creased 1/2 150,000 pounds a day  
through operation of the Inspiration  
Leaching Plant, started within the  
past few days, after an expenditure  
of \$6,000,000. The metal, deposited on  
anodes, is practically pure and will  
be available for use in industry at-  
least, without the necessity of refin-  
ing. Each anode will weigh about  
150 pounds when hoisted from the  
acid solution tanks.

The necessary sulphuric acid is  
brought in tank cars from the Calumet  
and Arizona works in Douglas,  
which were established for the bene-  
fit of the Ajo Leaching Works, now  
declining in importance as the old-  
fashioned surface ore diminishes.  
The Inspiration plant is much  
larger than that at Ajo, but readily  
may be supplied from Douglas, where  
also is made a special acid used in the  
manufacture of dynamite in a factory  
near Benson. It is reported that only  
one of the many roasters of the Calumet  
and Arizona smelter is needed to  
furnish fumes from which the acid  
is made in a \$1,000,000 plant.

## VENEZUELA OIL DEAL IN OFFING

Two Agents of Union on Way  
to Conference

Pantepec Tract of 900,000  
Acres Involved

Plan of Operation Calls for  
Fifty-Fifty Split

Paul M. Gregg counsel for the  
Union Oil Company of California, ac-  
companied by Rodrick B. Burnham  
manager of lands for the Union, left  
for New York City yesterday to con-  
fer with officials of the Venezuelan  
Pantepec Petroleum Company regard-  
ing the formation of an operating  
company which will develop on a  
fifty-fifty basis approximately 900,000  
acres of Pantepec holdings in  
Venezuela.

Under the terms of an agreement  
recently entered into by the Union  
Oil Company and the Pantepec Com-  
pany, the Union agrees to spend  
\$3,500,000 in development, the actual  
work to be done by the corporation  
or operating company which is about  
to be formed.

The corporation when organized  
will be under the management of  
the Union Oil Company of California,  
but close co-operation will be  
maintained between the Pantepec  
and Union, especially in regard to  
title, land and geological work.

Actual development work which  
has been held up pending the forma-  
tion of the operating company, will  
start as soon as it is possible to get  
materials on the ground. Union Oil  
officials say, Rodrick Burnham, who  
handled the preliminary negotiations,  
will go to Venezuela from New York  
to supervise the beginning of opera-  
tions.

With the right to develop this  
acreage in Venezuela, the Union Oil  
Company is thought to have placed  
itself in a strong position in a coun-  
try that is reported to have immense  
petroleum potentialities.

The holdings of the Pantepec Pe-  
troleum Company are rated as being  
among the most valuable in Venez-  
uela. They are scattered over both  
the eastern and western oil areas of  
the country, and in practically every  
instance they adjoin properties now  
being actively developed by the major  
American oil companies.

Following the acquisition of the  
holdings of the Sunnyside Oil Mines  
Company, in the Oatman district, by  
the recently organized Sunnyside  
Consolidated Mining Company, com-  
posed largely of the group of busi-  
ness men which carried on the suc-  
cessful development of the  
Eastern, the program of development  
work at the Sunnyside mine is go-  
ing ahead rapidly, according to an  
announcement made yesterday by  
H. Palmer, Jr., mining engineer and  
president of the company.

At the time the consolidation was  
effected, about thirty days ago, a  
total of \$60,000 was provided for de-  
velopment of new mining claims ac-  
quired at that time. These claims  
comprise 300 acres of patented ground  
formerly owned by the Tullahoma  
Mining Company, and believed by com-  
petent geologists to be an extension  
of the rich Union Eastern and Tom  
Reed ore channels.

All necessary new road construc-  
tion to the property has been com-  
pleted, and the sixty-horsepower  
hoisting plant formerly in use at  
No. 1 shaft of the Union Eastern  
is being moved to the site of the  
new shaft to be sunk at the Sunnyside.  
This shaft, double compart-  
ment, will be sunk to the level of  
500 feet. Foundations for the hoisting  
plant have already been set, Mr.  
Palmer says.

## BLUE LIGHT SILVER LEASED

Leasing of the Blue Light silver mine  
in Silverado Canyon, to a partner-  
ship composed of three prominent  
mining experts, a Chicago capitalist  
and a Los Angeles attorney who agree  
to develop and operate the holdings  
at full capacity for the next twenty  
years has just been announced by  
Charles Rykbrood of this city, president  
of the Blue Light Mining Com-  
pany.

A. W. Stuckey, mining engineer of  
San Mateo (Cal.), T. J. Jones, mining  
expert in charge of gold mines in  
Shasta county, W. D. Mader, mining  
expert for the Tilton Consolidated  
Mining at Salt Lake City; Judge C. C.  
Craig of Chicago; George W. Prince  
of Overton; and Lyman Plumb, a Los  
Angeles attorney, are announced as  
the lessees.

Contract for the leasing of the  
holdings calls for the greatest devel-  
opment program ever attempted at  
the mine and give promise that the  
historic workings which are reputed  
to be wealthy in mineral deposits  
are at last to come into their own.  
Work is to commence immediately  
upon the mill which is to be ex-  
panded and put in shape to handle a min-  
imum of fifty tons of ore per day.  
The operators guarantee to have the  
mine working at this capacity within  
a period of four months.

The property involved in the lease  
comprises fourteen mining claims  
with an aggregate area of 280 acres  
all located on the "winkles" of the  
vein. Mr. Rykbrood says: "Ore  
outcroppings are in evidence for a  
distance of approximately 800 feet  
across the apex of the holdings, and  
development work during the past  
six years has revealed that the ore  
vein runs deep into the earth. Sam-  
ples of average milling ore recently  
analyzed, revealed a content of 327  
ounces of silver per ton. These sam-  
ples also contained 10 per cent of  
copper, 10 per cent of lead, 10 per  
cent of zinc, 10 per cent of iron and  
11 per cent of sulfur."

Another step in the wildcatting pro-  
gram which, as announced several  
months ago, is one of the most com-  
prehensive and ambitious projects  
that has been undertaken by a single  
California company, was started  
last night when the Miley Petroleum  
Exploration Company quipped in its  
test well in the Goleta district, ten  
miles north of Santa Barbara. A. J.  
Miley, president of the company, in  
announcing the beginning of this  
project, reports that the organization  
has acquired leases in that district  
which aggregate 2330 acres.

Careful geological examination of  
the Goleta district is said to indi-  
cate that there is a well-defined  
structure there, but the new Miley  
well is the first attempt to explore  
the possibilities of the structure as  
an oil producer. The district is one  
of the few in California which has  
not been drilled. A steel derrick has  
been erected on the property. Rotary  
drilling equipment will be used.  
In addition to the Goleta wildcat,  
the Miley company is drilling a wild-  
cat well in the Red Mountain dis-  
trict of Ventura county, and another  
wildcat in the Red Mesa district near  
Durango, Colo. The latter project  
is now down 1200 feet, where twelve  
and one-half inch casing is being  
set.

Besides its wildcatting projects the  
Miley Exploration Company is drill-  
ing four wells in the new Hunting-  
ton Beach field, having already com-  
pleted two wells in that area, which  
are producing a total of about 2500  
barrels a day. Mr. Miley expects  
to have two more wells in pro-  
duction at Huntington Beach by the end  
of this week.

A field service postcard post-  
marked December 30, 1914, and mailed  
in France by a German soldier, has  
been delivered to a man at Mayas,  
France.

## TEST BEGUN AT SANTA BARBARA

Exploration of Area Started  
by Miley Company

Indications Held Favorable  
for New Field

Well first to be Drilled in  
That Territory

Another step in the wildcatting pro-  
gram which, as announced several  
months ago, is one of the most com-  
prehensive and ambitious projects  
that has been undertaken by a single  
California company, was started  
last night when the Miley Petroleum  
Exploration Company quipped in its  
test well in the Goleta district, ten  
miles north of Santa Barbara. A. J.  
Miley, president of the company, in  
announcing the beginning of this  
project, reports that the organization  
has acquired leases in that district  
which aggregate 2330 acres.

Careful geological examination of  
the Goleta district is said to indi-  
cate that there is a well-defined  
structure there, but the new Miley  
well is the first attempt to explore  
the possibilities of the structure as  
an oil producer. The district is one  
of the few in California which has  
not been drilled. A steel derrick has  
been erected on the property. Rotary  
drilling equipment will be used.  
In addition to the Goleta wildcat,  
the Miley company is drilling a wild-  
cat well in the Red Mountain dis-  
trict of Ventura county, and another  
wildcat in the Red Mesa district near  
Durango, Colo. The latter project  
is now down 1200 feet, where twelve  
and one-half inch casing is being  
set.

Besides its wildcatting projects the  
Miley Exploration Company is drill-  
ing four wells in the new Hunting-  
ton Beach field, having already com-  
pleted two wells in that area, which  
are producing a total of about 2500  
barrels a day. Mr. Miley expects  
to have two more wells in pro-  
duction at Huntington Beach by the end  
of this week.

A field service postcard post-  
marked December 30, 1914, and mailed  
in France by a German soldier, has  
been delivered to a man at Mayas,  
France.

## PIPE-LINE SURVEY ISSUED

For the first time in the history  
of the petroleum industry, a compre-  
hensive survey of every phase of the  
construction and operation of crude  
oil pipe lines and petroleum trans-  
portation in North America has been  
compiled and published, the cur-  
rent issue of the Oil and Gas Journal  
devoting about 800 pages to this fea-  
ture of the petroleum industry.

The 80,000 miles of trunk and gather-  
ing pipe lines in the United States  
represent an investment of \$300,000,000 and transport 1,000,000,000  
barrels of crude oil daily, the Journal  
shows. Other features in the issue  
show that there is invested in tank  
steamers \$400,000,000; in the 144,000  
tank cars of the country \$300,000,000;  
in tank trucks \$100,000,000;  
and in pipe line company telegraph  
and telephone systems \$25,000,000,  
making a total investment of \$1,075,000,000  
in the petroleum transportation  
system of the United States.

Manufacturing concerns will be in-  
terested to learn there is invested  
annually in crude oil transportation  
equipment for pipe lines, tank cars,  
tank trucks and tank steamers, \$300,000,000. The annual oil movement  
in the United States from this coun-  
try is given as follows:  
By pipelines, 788,000,000; by tankers  
from Gulf to Atlantic Coast ports,  
113,000,000 barrels; by tankers, coast-

wise from California to eastern  
ports, 28,000,000 barrels; foreign,  
111,800,000 barrels; by tank trucks,  
225,000,000 barrels and by tank cars,  
462,000,000 barrels.

Beginning with the transportation  
of crude oil in Northern Pennsylvania  
in 1862, in barrels by wagons and  
teams, on through 1881, when the  
Pittsburgh and Erie Railroad es-  
tablished a record crude oil move-  
ment of 10,000 barrels monthly by us-  
ing flat cars and rough haul, down  
through the building of the first pipe  
line at Pithole, Pa., in 1863, which  
had a capacity equal to that which  
could be moved by 500 wagon teams,  
the rapid development and growth of  
the pipe-line industry of the United  
States is described in detail with il-  
lustrations.

EMPIRE GASOLINE TO  
GET TANK CAR FLEET

The Cities Service Tank Line Com-  
pany has just purchased sixty in-  
sulated tank cars which will be used  
by the Empire Gasoline Company for  
transporting kerosene and gasoline.  
Both companies are subsidiaries of  
the Cities Service Company. These  
new cars are equipped with copper  
bearing steel tanks.

## NAVAJO RESERVE WELL COMES IN

New Mexican Company Gets 1200-Barrel Flow

Test Begun in Area Classed as Promising Field

Exploration Active in Whole Region of State

FARMINGTON (N. M.) Oct. 10. (Exclusive)—Completion of a 1200-barrel well on the Battlement structure and the spudding-in of a test well on the Chimney Rock structure, which is regarded by many geologists as one of the most promising structures on the Navajo reservation, were the features of oil-field development work here during the past week.

The Continental and Santa Fe companies operating on the Battlement structure, Sec. 2, 29-19 brought in the No. 19 a few days ago from a depth of 885 feet.

This production was obtained in the lower Dakota sand, the upper sand being covered by a layer of shale. The oil tests about 70 deg. gravity.

The new wells have just been located on this structure. They are the No. 20 and No. 21, the former having been spudded in; the location of No. 20 1751 feet north of the south line and 810 feet west of the west line of Sec. 2, 29-19, at an elevation of 3307 feet. The No. 21 is located 2103 feet south of the south line and 808 feet west of the east line of Sec. 2, 29-19, at an elevation of 3307 feet.

The No. 17 deep test well is drilling again at a depth of 3700 feet, after being delayed by the nonarrival of casing.

The Midwest Refining Company is moving in a rig to drill the Caco structure, which is near the San Juan and McKinley county line, not far from the Pueblo Bonito ruins. It will use the standard rig and start with a twenty-inch hole.

The Williams No. 4 well in Liberty Valley on Sec. 30, 30-15, is reported to have had a good showing of oil at 1063 feet.

Paul B. Ache and others, who are drilling on the Monroe structure in Rio Arriba county, are now down more than 1000 feet with the Dakota sands as their objective.

## Tunnel of Pay Divide Placer Nearer to Goal

In the development and operation of the gold placer diggings of the Pay Divide Mining Company, in Sierra county, the big operating and drainage tunnel has been driven 1500 feet, leaving 850 feet more to go before attaining its objective, a point about twenty-five feet below the bedrock of an ancient river channel.

Connection will be made by up-ramp, after which the extraction and treatment of the gold bearing gravel will follow.

According to exhaustive drilling exploratory work, it has been demonstrated that the gravel carries from 11 to 15 to the cubic yard.

The company owns over 14,000 feet along the channel, which is about 450 feet wide from rim to rim, with gravel deposits averaging about ten feet thick on bedrock.

According to tests made, about 1,200,000 cubic yards will be available for gold recovery once the tunnel connection is made and actual gravel washing begins, and this is anticipated during early winter.

## Mining Exhibit of Arizona Fair to be Extensive

PHOENIX, Oct. 10. (Exclusive)—The mining exhibit at Arizona's State Fair, November 8-13, will be of such size as to necessitate addition of several tents to accommodate the machinery displays. The department has a two-story brick building to itself, filled with well-displayed samples of every class of ore found in the state, with a number of special exhibits, such as of the beautiful malachite and azurite of the Copper Queen mines at Bisbee.

Other special showings are of the stages of ore in passing through reduction processes and of unusual geological formations. Among some of the unusual exhibits are asbestos, molybdenum, vanadium, arsenic, antimony, manganese, gypsum, mercury, conch, sodium sulphate and various interesting forms of lead and zinc.

Two valuable government oil permits were won by R. M. Ashby and Lee M. Gregory of Bakersfield in a government land lottery held in the United States Land Office at Visalia this week.

Six hundred and forty acres are described in the Gregory permits as comprising Sec. 9, 25-20, in the southern extension of Kettleman Hills. To Ashby 440 acres in Buttonwillow district were allotted.

Both drilling permits cover land in the near future. The Buttonwillow area is the scene of the Milham Exploration Company's extensive operations. North of Gregory's permit is the Kettleman Hills well of the Bolea Chico Oil Company.

## OLD GUNSMITH MINE AGAIN OPERATING

AJO (Ariz.) Oct. 10. (Exclusive)—The famous Gunsmith mine of pioneer days again is being worked, under charge of Sam Fields, former superintendent of the Ray Hercules property at Ray. A host has been purchased and on will be hoped soon for shipment. The property now is owned by Walter S. Wheeler of Detroit.

## Comparison of California's Daily Oil Production

District	Week ending Oct. 2, 1956	No. Wells	Average for Week	Week ending Oct. 9, 1956	No. Wells	Average for Week	Week ending Oct. 10, 1956	No. Wells	Average for Week

## OIL PORT TRANSFER MADE COMPRESSOR IN USE ON TUNNEL

Annexation of San Luis to Los Angeles Maritime Area Will Boost Weekly Shipment Figures

Port San Luis is now part of the maritime area of Los Angeles port of entry, the transfer from the San Francisco district having been completed during the week and approved by the Secretary of War in Washington. Shipments of petroleum products from Port San Luis average about 2,600,000 barrels monthly, all by and for the Union Oil Company.

The company's pipe-line system from Kern county and Coalinga converges at the San Luis Obispo tank farm, from where the oil is piped to Port San Luis for loading into tankers. The request for transfer from San Francisco to Los Angeles of the official registry of Port San Luis was made by the Union Oil Company to be more convenient to its Los Angeles headquarters, and no objections to the transfer were made.

The addition of these Port San Luis shipments will swell the monthly volume of petroleum products shipped from the Los Angeles area by just that much. Outside of the coastwise shipments of crude from Southern California via Los Angeles Harbor, petroleum shipments to and from San Francisco Harbor district consist exclusively of refined products—gasoline, kerosene and fuel oil produced at the bay refineries of the Standard Oil Company, the Shell Company, the Associated Oil Company and local distributors. The Standard Oil Company and the Shell Company furnish the bulk of petroleum tonnage at San Francisco, much of it for export to the Orient, South America and through the Panama Canal. Los Angeles is the ranking tonnage port of the Pacific Coast as New York is of the Atlantic Coast.

## HUASTECA'S OIL RESERVE GROWS

TAMPIO, Oct. 10.—The Huasteca Petroleum Company continues to pile up a light oil reserve and has just added 75,000 barrels daily production to its southern crude potential withdrawal with the completion of Tierra Blanca No. 80, at a depth of 2084 feet, with a subsea elevation of 1040 feet.

While the company's commitments require current withdrawal of an average of 40,000 barrels daily, it is considered that the Huasteca has possibly 150,000 barrels potential output of light crude. Several other wells have come in recently in both Tierra Blanca and Cerro Azul, which are being drawn upon for but a few thousand barrels daily, with a reserve production also in Chapopote Nunas.

The Huasteca is at present working on two wells in the light oil district, of which one is in Cerro Azul, six in Tierra Blanca and three in Chapopote Nunas. In addition, sixteen wells are drilling in the heavy oil district with five others being rigged up. Eight of the number are for the account of the National Railways of Mexico, whose holdings along the right of way of the Cardenas division are being operated by the Huasteca.

## SONORA MINE ORES RICH IN VANADIUM

NOGALES (Ariz.) Oct. 10. (Exclusive)—Vanadium values now are large in the lead-ore ores of the Trias de Mayo mine, a Sonora property recently optioned by A. L. Peck of this city to a California syndicate. An extensive plan of development is being carried forward, with retreating of the lower levels of the property and installation of a new hoist and new crusher.

Those Dear Girls: Are you going to return the poor fellow's ring? Marie (Who has just broken her engagement to a fellow who, I suppose he'll propose to you now, and I thought I'd just hand it over to you to save the bother. — Boston Transcript.

## Kentucky Utilities Company

First Mortgage 5% Gold Bonds Due February 1, 1961

Price 97 and Interest, Yielding About 5.20%

For detailed information regarding the Company and these bonds, attention is directed to a letter of Mr. Harry Reid, President of the Company, from which the following is summarized

**Territory:** The Kentucky Utilities Company serves 119 communities with one or more classes of public utility service, 118 of which are supplied with electric light and power, 17 with ice, 10 with water, 4 with gas and one with street railway service. The combined population of the communities thus served is estimated to be 224,000. The Company controls the Kentucky Hydro Electric Company which company owns and operates a 22,500 K.W. hydro electric generating station on the Dix River near Lexington. The Company also controls the Old Dominion Power Company, serving 17 communities in southwestern Virginia.

The transmission lines traverse a large agricultural territory, including 14 counties in the highly fertile "Blue Grass" region of central Kentucky. These Companies also operate extensively in the heart of the rich coal mining districts of southeastern and western Kentucky. The diversity of the sources of revenue causes the Company's earnings to be remarkably uniform throughout the year.

## BOUNDS OF OIL AREA EXTENDED

New Artesia Well Outside of Proven Territory

Empire Gets Small Producer in Shallow Zone

Project on Winans Ranch is Surprise of Week

ARTESIA (N. M.) Oct. 10. (Exclusive)—A mile and a half extension of the Artesia field has just been made by the completion of the Pueblo Oil Company's Yates No. 1 on Sec. 33, 17-28, which appears to be one of the best wells in the field.

After encountering a good sand at 2000 feet, the hole was carried down to 2200 feet and shot with sixty quarts of nitro in the lower sand. After cleaning up the well flowed by heads for a time, but no test of it has been made.

A shallow well has just been drilled in by the Empire Oil and Gas Company on the west side of the field, offsetting their No. 1 producer on Sec. 35, 17-27, to the south. A test of this well showed it to be good for seventeen barrels in twenty-four hours, coming from a depth of 430 feet. The well will probably be drilled deeper as a better sand was encountered in the No. 1 at 1004 feet.

The Woolley-Jones interest of Los Angeles have completed their steel derrick on the Danziger permit on Sec. 21, 17-30, and should start drilling within the next ten days.

## IMPORTANT TO STOCK SALESMEN

If the stock you have been selling has suffered a big decline, I have a suggestion that may yet bring your clients out ahead. You must act quickly. See me this morning. Mr. Gorman, 728 S. Spring Street.

## Associated Gas and Electric System

Founded in 1902

## Public Service in 12 States

From a small beginning in 1902, the Gas & Electric System has grown to serve 350,000 customers. Of these, 290,000 are electric customers. 5% of earnings of the Associated System are paid in dividends to stockholders.

Over 146,000 customers are served in the State, 17,000 in New England, 50,000 in Tennessee and Indiana, 53,000 in the city of Chicago and 103,000 in Pennsylvania.

The public service activities of the System extend throughout 1,000 communities, serving 2,000,000 population.

# GOOPS!

A Daily Lesson in Manners for Children

BY GELETT BURGESS

(Copyright, 1936, By The Chicago Tribune.)

**RESPECT FOR LADIES.**  
If you're a boy, you ought to know. Ladies should be respected, so you ought to help them, and protect them. And wait on them, and not expect them to be as strong and brave as you. Or worry them, they way Goops do.

## Rockefeller's Granddaughter "Spoofs" Jurist

ALBANY (N. Y.) Oct. 10. (AP)—Miss Muriel McCormick, granddaughter of John D. Rockefeller, and daughter of Mr. and Mrs. Harold McCormick of Chicago, was among the traffic-law violators arraigned in Albany Police Court.

She pleaded guilty to driving her automobile to the left of a trolley car, but Police Justice Chief John Brady dismissed the charges when Miss McCormick explained that "in Chicago we are allowed to drive to the left of street cars," and that she did not realize she was breaking a law here.

CHICAGO, Oct. 10. (AP)—When Miss Muriel McCormick pleaded ignorance

## VON HEERINGEN DIES

Was Commander of German Coastal Defense in World War

BERLIN, Oct. 10. (AP)—Gen. Josias Von Heeringen, former Minister of War, is dead, he was 76 years of age. In the World War he was commander-in-chief of the Eighth Army Corps and in August, 1918, was placed in supreme command of the German coastal defense.

As Minister of War Gen. Von Heeringen put through the Reichstag a bill providing for five years' military service. As early as 1913 he advocated a German army air service with a strong force of airplanes.

## Irene Castle Not Thankful for Buggyride

CHICAGO, Oct. 10. (AP)—Mrs. Irene Castle McLaughlin and her daughter, Barbara Irene, not yet 3 years of age, narrowly escaped serious injury here last night when their gig was upset when her horse, becoming frightened, ran away.

Mrs. McLaughlin jumped from the gig with the baby in her arms. The mother was shaken and bruised, while the baby suffered a bruise on the head.

A caretaker on the estate of Mrs. Edith Rockefeller McCormick assisted Mrs. McLaughlin and her baby to the home of her husband, Maj. Frederick McLaughlin.

## HALLENBECK TRIP FROM HOME PROVES PUZZLE

Investigators Fail to Get Trace of Movements at Arizona Ranch; Evangelist Asks Klan Aid

(Continued from First Page)

The questioner by Keyes' deputies immediately. Hallenbeck has been a central figure in the case since shortly after the disappearance of Mrs. McPherson. He first appeared as a friend of the McPherson family and made a trip to Winters to bring Mrs. McPherson's minor son to Los Angeles shortly after the evangelist disappeared. After the disappearance, he was questioned by the police regarding his movements up to that time.

### REFERENCE TO HEARING

Mrs. McPherson spoke at three meetings at the temple yesterday morning, afternoon and night. But for the fact that I am borne up by the arms of God, incidents of the last few weeks would have been impossible for me to bear. The evangelist's on reference to the crowded events of her preliminary hearing, in addressing a crowd that filled the temple to capacity and overflowed into the streets at last night's services.

Mrs. McPherson, in her sermon yesterday morning, made no reference to the hearing in Judge Blake's court. She selected "Master, Where Dwellst Thou?" as the text of her sermon, and in her interpretation pointed out that it was just as the disciples were drawn to follow him as does His spirit "reach out and touch the heartstrings of those who attend the temple."

The preliminary hearing before Judge Blake, opening its third week today will bring out evidence which the State's attorney is said to look upon as tending to prove that E. H. Hallenbeck, former Angelus Temple radio operator, sold his automobile in an Arizona town about the time that Mrs. McPherson appeared in Douglas. This evidence, it was said, had been developed recently by investigators sent to Arizona by the District Attorney.

As a result of the disclosure of this new testimony, it is expected the State will attempt to show that the evangelist and Ormiston left Carmel in the radio operator's car, finally arriving at a ranch near Tuma, where the evangelist is said to have remained eight days.

MRS. BELAFFY TO TESTIFY  
Other testimony of a sensational nature is expected to be brought out by the State this week. Included among the witnesses yet to be heard is Mrs. Wiseman-Belaffy, who was exposed by The Times as the chief figure in an asserted hoax to prove parts of Mrs. McPherson's kidnapping story, and who has signed a confession reciting her part in the reported manufacturing of evidence tending to prove that a mysterious Miss X conspired the Carmel cottage with Ormiston.

Another witness for the State who is expected to be heard this week is Bernice Morris, secretary to the late W. A. McKinley, Los Beach attorney, and who, the prosecution contends, will testify to its asserted charge that Mrs. McPherson sought to manufacture evidence to bear out her kidnapping story.

Hallenbeck will be recalled to the stand for questioning, according to announcement by the prosecutor's office. He will be asked to ex-

plain whether he had any connection with the evangelist's disappearance or subsequent reappearance in the Sonora desert at Agua Prieta, Mex. The decision to recall Hallenbeck followed the reviewing by Dist. Atty. Keyes of a written report filed by investigators Chris and Anderson of the prosecutor's staff. The report was made following their return from a trip to Yuma and Gila Bend, Ariz., where they spent several days conducting an investigation.

### GAVE STATEMENT

Hallenbeck shortly after the evangelist disappeared at Douglas, was questioned by Dist. Atty. Keyes. He also made a lengthy statement before the grand jury. In it he denied knowledge of Mrs. McPherson's movements and described his whereabouts during the time she was missing.

Complete denial that he himself drew up the affidavit sent Ormiston exonerating Mrs. McPherson in the Carmel incident, at the request by telephone of the evangelist, was made in Chicago yesterday by Attorney Edward H. S. Martin. Chicago dispatches said that Martin said, "I never received a telephone call from Mrs. McPherson or from anyone else who claimed to be her." "That is all I know of the case directly. I never received a telephone call from Mrs. McPherson and I most certainly did not make the affidavit at her request."

### ALLSTORM SALE OF BOOKS DENIED

PITTSBURGH (Eas.) Oct. 10. (AP)—The statements of Oliver Allstorm, who testified at the preliminary hearing of Aimee Semple McPherson Friday in Los Angeles, that he had sold a story "Kidnapers" to a Grand magazine was branded false tonight by E. Haldeman-Julius, owner of the only magazine publishing company in Girard.

Mr. Haldeman-Julius has carried in his publications several stories concerning the McPherson case, but has not used any of Allstorm's material.

Mr. Haldeman-Julius said that two poems with Mrs. McPherson as the theme were sent to him, about which an offer to sell the other story. The poems were rejected on literary grounds, he said, and a letter rejecting the offer of Allstorm's story accompanied them back to their writer.

### MRS. McPHERSON'S "DOGMA" ASSAILED

CHICAGO, Oct. 10. (Exclusive)—A warning against dogmatism and emotionalism as factors in moral breakdowns was the principal lesson Dr. John Thompson, pastor of the Chicago Temple, gleaned from the sermon of the evangelist at his sermon on the subject this evening. "I am not trying Mrs. McPherson on the merits of Aimee Semple McPherson, but on the merits of Aimee Semple McPherson," said Dr. Thompson. "We know enough of her preaching and the frenzied way many of her followers seek to form a judgment on her as a type."

Dogmatists such as she is set as an example to the devil, and are taken from heaven with the last word from the Almighty and cannot be contradicted. They preach what they

### Today's Bible Text

"Blessed be the Lord thy God, which delighted in thee, to set thee on the throne of Israel; because the Lord loved Israel forever, therefore made he the king, to do judgment and justice." 1 Kings 1:3.

call the "four square gospel" just as though other ministers were preaching a mutilated gospel. It is easy for such persons to persuade themselves they are above the written law and excuse actions in themselves they would not excuse in others.

## BUILDING OF NEW CHURCH UNDER WAY

Ground Broken by Son of Founder of First Unitarian Edifice in Eighth Street

(Illustration on Picture Page)

Ground was broken for the construction of the proposed new First Unitarian Church yesterday afternoon at the site, 2640 West Eighth street, near Vermont avenue.

The first spadeful was turned by J. S. Severance, son of Mrs. Caroline Severance, founder of the church and widely known in past years as a leader among women. Rev. E. B. Backus, the pastor, explained the plans of the new building. Approximately \$500,000 will be expended on the church. The main auditorium will seat 900 and will contain a pipe organ. Underneath will be a gymnasium. The second unit will contain classrooms, assembly rooms, Sunday-school rooms, a dining-room which can be used as a theater, as well as having a dance floor.

### SPENDS BUSY SUNDAY DENYING HE IS DEAD

D. H. Wade, former member of the local police department, spent a busy yesterday vigorously and emphatically denying to his friends that he had committed suicide Saturday night. The statements of Wade, who had been reported dead by a newspaper, were made at a dinner given at the home of Mrs. Wade, 548 East Pico street, a former police officer of San Diego, Okla., killed himself Saturday evening. Mistaken identity was responsible for an early report stating that the dead Oklahoman with the living Angelus.

### SEWER ORDINANCE PASSED

The way has been cleared by the City Council for the awarding of contracts and the starting of the sewer and paving of Marine avenue, Vermont street and Adams street between the first and second streets.

Twenty-first street and Adams street by the adoption of the final ordinance authorizing the improvement.

### TO OBSERVE HOLIDAY

Owing to the fact that tomorrow is Columbus Day, a legal holiday, the regular session of the City Commission will not be held until Wednesday morning.

## AIMEE! A Modern Drama of Gossip

BY ALMA WHITAKER

SCENE I

The C. car, at the end of the line at Kensington Road.

Conductor: . . . an' the crowd down there gets bigger every trip. It beats me. I ain't ever seen her and don't want to. But my wife's sister got it straight from a woman what knows the girl who works in the store where she bought 'em. Yes, street, a \$1000 worth of fancy underclothes . . . that's where the money goes . . .

Nice Old Lady: Now what would a man like you be telling fool gossip like that for? And her good decent woman that has done so much good and raised values in this neighborhood by building her fine temple . . .

The Man With the Cigar: Yeah. She sure gets the money, all right. But go on, if she wanted a

## FRIENDS OF HOME RALLY TO SUPPORT

Hundred Clubs Prepare to Make Intensive Campaign for Sheriff Candidate

More than 100 Home-for-Sheriff clubs throughout the county yesterday completed plans for an intensive campaign for the election of Sheriff George K. Home.

The clubs will be active in the next three weeks in behalf of the candidacy of former Chief of Police Home for Sheriff.

One of the outstanding features of the program will be an extensive letter-writing campaign by members of these organizations. It is expected that more than 100,000 letters will be mailed to the voters of the county during the election of Capt. Home.

In each letter it is pointed out that Capt. Home has twenty-two years' experience in the police department, where he rose from the ranks of a patrolman to the position of Chief, to fill the office of Sheriff and give the county an efficient and economical administration.

Twelve in Toils After LIQUOR RAID

Contreras and Squad Take Field Again and Seize Alcohol and Stills

Twelve prisoners, two stills and an automobile were captured in week-end raids by George Contreras, chief enforcement officer of the District Attorney's staff, and his men, he reported yesterday. One of the prisoners, O. W. Lake, taken near Sherman, told officers he thought it would be safe to work since Dist. Atty. Keyes had announced the prohibition squad had no more money, the report said.

At Redondo the captures were Jack Charles Tarr, James Gardiner and M. E. Hews, the two former charged with possession and transportation. At Belvedere, Jesus Valdes was arrested, charged with possessing a fifty-gallon still. William Booker was arrested at 1347 Florence avenue. A. E. Miller was arrested at 1230 Florence avenue, and John A. Miller at a barn near by.

In Santa Monica, police, with the aid of the Santa Monica police, four prisoners were taken. Mr. and Mrs. John W. York were charged with selling whisky. John, the barber, with selling whisky, and Sam Bridgeman at the Martel Pharmacy, 7400 Santa Monica Boulevard, with the same offense.

## SOCIETY

**BY JUANA NEAL LEVE**  
The American University Union of Paris never has a dull moment, comparatively speaking, for when the students leave the transients come. It is still nearly a month to the opening of the universities and the American students in Paris are mostly on vacation, but the rooms of the union at 187 Boulevard Saint Germain are about as full as they are in the winter when "getting educated" is in full swing.

New faces appear every day as students and teachers pass through the gates of the union for information or to get mail or to recover the academic atmosphere for a quiet hour or two. The register for visitors is filled at the rate of about two pages a week, mostly by persons who write in the space allotted for "length of stay" some time limit as one or two weeks.

Recent visitors to the union from Southern California include Charles B. Lawler, son of Mr. and Mrs. Lawler of Beverly Hills, who has been stopping at Hotel Bristol in Paris. Mr. Lawler received his bachelor of arts degree from University of California in 1935.

Miss Florence Whyte, an alumna of Bryn Mawr, who is making an indefinite stay in the French capital while studying romance literature at the Sorbonne, was in Paris last week. She is living at 214 Boulevard Raspail.

Growing to Europe aboard the United States liner Leviathan on its most recent trip were Mr. and Mrs. James Brunner of San Francisco with their daughter and a group of girls who will enter a finishing school in Paris. The party includes Miss Katherine Brunner and Miss Callie Brunner, and Miss Maria Umbreit of San Francisco, and Miss Eleanor West of San Francisco and her mother, Mrs. W. R. West.

Miss Elizabeth Burns, entertained at a reception and bridge last week at the American Women's Club in London to introduce Mrs. Joseph P. Burns, formerly of California.

Mrs. Grace Stafford of Hollywood and her son, who have been visiting in Germany, were recent visitors to Dresden, stopping at Hotel Continental.

Americans are pouring into Paris, some to be there for the winter, but the majority sailing within the next ten days, all of which means that farwell luncheon and dinner parties are numerous. Princesses Domitio Crisost, formerly Mrs. Robert A. Brown of Los Angeles and Pasadena, was noticed last week in a luncheon party given by J. Kingsley Macomber at the Ritz. Other recent arrivals in various parties included Mrs. Adolph J. Spreckels, who recently returned to Paris from Biarritz and who was entertaining for Louis Puller.

Dr. and Mrs. J. W. Oakley recently returned to Paris after a month's travel in Switzerland, Italy and on the Riviera, and passed a few days at the Grand Lefevre sailing for America aboard the Leviathan. After several weeks in New York they will proceed to Toronto and they do not expect to reach their home in Los Angeles until after November 1, next.

Mr. and Mrs. John M. Fox, whose marriage in London was one of the fashionable functions of last month, have arrived in Paris and were

among the throng of dancers at the opening of the Perroquet Cabaret. In the same party were Mr. and Mrs. Philip Flint, the latter a sister of Mrs. Fox. Mr. Fox took his bride to the Lido for their honeymoon and arriving in New York the 4th inst. and will come immediately to Los Angeles.

Mr. and Mrs. Frank Mutton have returned to Paris after being in Biarritz, where they had a villa for the summer, where the entertained extensively during their stay at the fashionable resort.

Mrs. Johnstone Preston of Hollywood, gave a dinner last week at her home in Avenue Marceau, Paris, for Mr. and Mrs. Ralph Miriam of Detroit, and took her guests afterward to the opening of Le Perroquet. Miss Florence Preston left Paris by motor last week for Biarritz, where she will be the guest of friends for a week's visit.

Mrs. William Clark Brown and Miss Mary Vaughn of Los Angeles and Miss Jean Vaughn of Honolulu, after some time passed at Hotel Wagram in Paris, have crossed the Channel to London.

Mrs. Ralph E. Starkweather of Santa Barbara and Los Angeles has returned to Paris from Saint-Jean-de-Luz and has taken an apartment for the winter at the Palace Hotel at rue de la Paix. She is accompanied by her daughter, Mrs. E. J. Edwards of Pasadena, who is also in Paris.

Mr. and Mrs. William E. Stevens, who have been on the continent for several months, have returned to Paris from Dieppe, France, and are staying at the Richmond. They will remain in the French capital for a brief visit and will then sail for home aboard the liner President Harding.

Mr. and Mrs. Robert Lee of Hollywood have been stopping at the Palace Hotel in Paris. Mr. Lee is a member of the American Express Company in Brussels.

Mr. and Mrs. P. H. Hunt have been visiting in Interlaken, Switzerland, and have returned to Paris. Mr. Hunt has been in Berlin for the past fortnight, stopping at the Bristol, and Mr. D. Edwards of Pasadena has returned to Paris from Biarritz and is at the Continental.

Mr. and Mrs. Frederick Stearns of Los Angeles have returned to their Paris apartments in Rue Jean-Goujon, after passing the summer at Saint-Jean-de-Luz, and were noticed amongst the hosts at dinner at the Ritz Sunday evening.

Formal announcement is made this morning by Miss Harriet Hanna of 237 West Twenty-second street of the engagement of her attractive niece, Miss Emily Hanna Smith, to Leslie Scott Nelson. The news was told to a large coterie of friends at a bridge tea given at the home of Miss Hanna several days ago. The announcement was made by the names of the betrothed fastened with arrows on the side of hearts in the bridge deck. The wedding will be an event of the near future, probably in the Christmas holidays.

Miss Smith was graduated from University of California, Southern Branch, while Mr. Nelson is an alumna of the same university at Berkeley. Many delightful affairs are being given in honor of Miss Smith, among them being the bridge with Miss Charlotte Priestler entertained Saturday afternoon, while Miss Virginia Arnold is planning a similar affair this week.

Dr. and Mrs. Ray Lyman Wilbur were guests at dinner with their daughter, Miss Bertha Wilbur, Tuesday evening. Dr. and Mrs. Wilbur left yesterday for an extended tour of the Orient.

## The LAST WORD

By ALMA WHITAKER

## GENTLEMANLY WOMEN

When something new evolves it is up to the lexicographers to find up the proper word to define it. As when, for instance, flying machines began to fly they evolved "airplane" as the proper word.

Very well, then. Of course, there have been "gentlemanly women" throughout history to a certain extent, but not enough of them to inspire the lexicographers to define them dictionary.

We made a good deal of capital out of the fact that there was no word for "gentleman" in German during the war. This was good for a column by many an allied scribe—even if we have since discovered that the one-time "enemy" can prove more "gentlemanly" about his financial engagements than some of our more approved Allies of that hectic day.

Nowadays, however, there is quite an effluence of "gentlemanly women" who we should shudder to denote as that much abused word "ladies." "Ladies" doesn't mean the same thing at all.

WANTED, A WORD  
We want a word that means something rather superior in the way of integrity and good sportsmanship, something that means taking things gallantly, courageously, honestly, fairly. Something that combines good manners, good morals, fair dealing, kindly consideration, a scrupulous regard for other people's rights and preferences. We want a word that is the antithesis of petty selfishness, sneakiness, trading on feminine weaknesses and privileges. A word, in short, that means a highly honorable woman.

The need of this word becomes apparent in numerous modern plays. There is quite a vogue for describing heroines as "gentlemanly." "Gentlemanly" would not do either, for

evening. Dr. and Mrs. Wilbur left yesterday for an extended tour of the Orient.

## MOTHERS AND THEIR CHILDREN

## Washing the Hair

One Mother Says:  
Put the little one in the bath-tub, and rub soap or a shampoo on a stiff hand brush, which has been moistened with clear warm water. Then with the brush, rub the baby's head a bit at a time, not too hard. See how quickly the dirt loosens, and how easy it is to keep the water out of baby's eyes. When you are ready to rinse the hair, gently tip the baby's head backward and wash with clear water, moving the brush toward the back. If you keep talking about interesting things during the process of washing, there will be little danger of tears.

## VICTIM OF BANDIT GANG NEAR DEATH

Youth Identifies Suspect as One Who Stabbed Him in Affray

A victim, according to his own assertion to the police, of a gang of robbers, Pablo Rodriguez, of 211 North Bailey street, who was in a dying condition at the General Hospital from a stab wound under the heart.

The wound, according to the police, was inflicted by one of the alleged gang, Trinidad Davis, 21, of 211 North Bailey street, who was placed in the City Jail on a charge of assault with a deadly weapon with intent to commit murder.

The asserted attempted robbery and attack on Rodriguez took place at 820 1/2 North Broadway, according to a police report.

## Death Attempt of Electrician May be Fatal

Joe Berry, 23 years of age, an electrician, who, according to a police report, attempted to end his life by inhaling illuminating gas, was reported to be still in a critical condition at the General Hospital late yesterday.

At the same time police stated they were unable to discover any motive for the man's attempt to end his life and were unable to locate any relatives or friends.

If Berry lived he would owe his life, perhaps, to A. McIntosh of 2124 North Broadway, McIntosh told police he detected the electrician late yesterday, entering from Berry's room and opened the door to find Berry lying on the bed with a newspaper covering his face and the end of a gas tube inserted between his lips.

It was learned by investigating officers that Berry resided at the rooming-house on the 7th inst., from Portland, Or.

## TAXI CHAUFFEUR'S ASSAILANT FINED

Matt Conava, described by Deputy City Prosecutor Chotiner as an "imported San Francisco tough," was found guilty in Municipal Judge Richardson's court on a charge of battery and sentenced to pay a fine of \$50 for his attack upon W. H. Anderson, a local taxi driver. According to Prosecutor Chotiner, Conava, a tall, burly man, was brought to the attention of one taxi company to intimidate drivers of the cab of a rival company.

## TO FINISH FINAL REPORT

Preliminary Finding on Impounding Kern River Water, Approved by Directors

BAKERSFIELD, Oct. 10.—Final report on the Kern River water storage district project for impounding Kern River waters, south fork valley, just below the river's north and south tributaries at Isabella will be completed by the end of this year, according to A. L. Trowbridge, chief engineer for the storage district.

## TAXPAYERS WILL CONVENE TODAY

Western State Delegates Arrive for Session

Many Important Topics Due for Discussion

Dr. Milbank Johnson Will Preside at Opening

With between 300 and 500 delegates expected to be present, the first 1936 session of the Western States Taxpayers' Conference will open at 2 p.m., today in the Billings Hotel.

Meetings of the organization will continue throughout tomorrow and Wednesday.

Among the 300 representatives of the taxpayers' association from Texas, Nevada, Arizona, Colorado, Utah, Idaho, Montana, Wyoming, Oregon, Washington and New Mexico arrived in Los Angeles yesterday and were prepared to attend the conference tomorrow.

A. C. Rees of Utah, founder and executive secretary of the organization, Dr. Milbank Johnson of Pasadena, president of the Western States Taxpayers' Association, will preside at the meetings open this afternoon. An informal dinner meeting will take place at 6:30 p.m. at the Billings.

## THEFT FROM CARS TOGET SIX MONTHS

Boys Are Given 180 Days in Jail in Effort to Stop Rifling of Parked Autos

Those convicted of theft from automobiles have taken their places along with drunken automobile drivers in a cell as the imposition of stiff jail sentences by local judges are continued.

Two boys, William J. Bland and James Gilie, went to jail yesterday for 180 days, the sentence imposed upon them by Municipal Judge Richardson for stealing a sample case from the parked car of H. H. Wood of 170 South Central avenue.

They were arrested on the 8th inst., at Fifth and Los Angeles streets by Detective Lieutenants Bunch and Manafield.

## Menjou Divorce Scheduled for Hearing Today

Adolphe Menjou, screen bon vivant, is scheduled to make a personal appearance in Judge Keeler's court this morning when his contested divorce suit against Kathryn Menjou is called for trial.

Menjou started the divorce mill grinding when he filed suit against his wife, charging her with cruelty. She responded with a cross-complaint on grounds of desertion.

Menjou, according to his wife, earns a salary of \$5000 a week in the films and he had been paying Mrs. Menjou \$500 a week temporary alimony under a court order.

Attorneys Joseph Scott, A. G. Ritter and L. B. Ward will represent Menjou, while Attorneys Milton M. Cohen and C. O. Bacon are scheduled to appear for the wife.

## Score of Raids Land Sixty-six in Police Nets

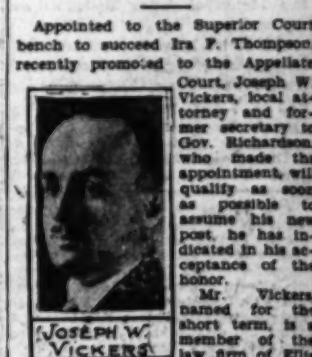

Leading two separate squads of police officers, Detective Lieutenant Hoy and Sergeant Sweetnam yesterday conducted more than a score of raids that resulted in the arrests of sixty-six men on gambling and liquor law violation charges.

Among the places raided were 950 1/2, San Julian street, 924 South San Pedro street and a house at Montana and Berrington streets.

DEEDS TO PROPERTY TAKEN BY BURGLAR  
Papers, including deeds to property, \$625 worth of stock certificates, a diamond ring valued at \$300, and an in cash, were obtained by a burglar who climbed through the bedroom window into the home of L. O. Dewey at 1033 Wollsey avenue, early yesterday morning, according to Mr. Dewey's report to the police.

## VICKERS TO QUALIFY FOR COURT POST

Governor's ex-Secretary to Succeed Ira F. Thompson on Supreme Bench

Appointed to the Superior Court bench to succeed Ira F. Thompson, recently promoted to the Appellate Court, Joseph W. Vickers, local attorney and former secretary to Gov. Richardson, who made the appointment, will qualify as soon as possible to assume his new post, he has indicated in his acceptance of the honor.

Mr. Vickers, named for the short term, is a member of the law firm of Ellis & Vickers, and while the court session is in session, he will continue to practice law.

A thorough program of study, including the study of the law, will be undertaken by Mr. Vickers, who is a graduate of Stanford University and has practiced law in Los Angeles since 1923, when he resigned as secretary to Gov. Richardson after serving an appointment, characterizing him as a man of high integrity, legal ability and industry.

## Crackers Rout Hold-up Man in Grocery Store

Animal crackers and the tin can in which they were contained proved a more effective weapon than a long-barreled revolver late Saturday night, when J. A. Bernards thwarted the attempt of a bandit to hold him up in his grocery at 4315 Acot avenue.

Bernards reported to the police that he was alone in the store when the bandit entered and pointed a pistol at him, accompanying his gesture with a threatening demand to "hand over your cash."

Instead of complying with the man's demand, Bernards picked up a large can of animal crackers and hurled it at the bandit's head. The latter, floundering about amid unheeded bears, lions, tigers and elephants, made a hasty retreat for the front door.

## Electric Washing in Your Own Stationary Tubs — A Wonderful Thing for Mothers

WHAT'S the big feature of this newest and most ingenious of electric washers—the Royal. It fits right on the ordinary stationary tubs, converting them into a modern, double-capacity washer.

Baby's little garments may be washed separately and right at the same time the family wash is being done. The Royal will wash in two tubs at once, or if you prefer, it will rinse by electric power in one tub while the washing continues in the other.

The Royal also has a wringer which reverses at the touch of a switch and may be instantly adjusted to wring a blanket, sheet or a pocket handkerchief.

There is no water to lift or hose to bother with using a Royal. All the hot or cold water you need is drawn from the faucets in the tubs.

Plenty of water and power rinsing gives cleaner cloths.

Tested and approved by the Good Housekeeping Institute

Our Budget Plan Makes It Easy to Own the Royal. Don't be Without this Wonderful Convenience in Your Home Now.

Phone EMpire 1141 and a demonstration will be gladly arranged

## Industry

## HENRY J. ALLEN VOLSTEAD LAW GIVEN PRAISE

Henry J. Allen Attributes Prosperity to Act

Economic Advantage Pointed by Noted Kansan

Enforcement Will Follow, Speaker Asserts

Prohibition has in no small measure contributed to the present high level of the prosperity in this country, in the opinion of Henry J. Allen, of Wichita, former Governor of Kansas and publisher of the Wichita Beacon, who was at the Biltmore yesterday.

Mr. Allen's visit here was in connection with that of the student body of the "Biltmore University," which spent the week-end in Los Angeles, the newspaper publisher being in charge of the class in journalism at the self-water college.

"I believe there is no question that the economic advantages that have resulted from the curb on liquor are reflected in our present prosperity condition," declared Mr. Allen. "It occurs to me that the sixty-million-dollar industry of the liquor traffic could not have been maintained under the conditions existing in the old days when a large share of many incomes went for liquor and the power of a considerable number of our citizens were impaired by drinking."

On the basis of this conclusion, Mr. Allen suggested that the prohibition law stands a slim chance of repeal or even of such modification as will permit liquor of any kind.

**STARTS AS SENTIMENT**  
"Prohibition started as a sentimental and ethical issue but it was economic pressure that finally put it across," he commented. "When industry and business raised their voices against the employment of men who drank they ousted the saloon. That's where the economic factor entered."

"After some seven years of prohibition, important though enforcement may have been, the economic benefits of the system, to my mind, are very apparent, and I believe they will grow as enforcement is perfected. And the more it can be shown that prohibition is economically beneficial the more difficult will it be for liquor to come back."

"Kansas adopted a prohibitory law more than forty years ago and for a considerable period after its adoption went through a period of turmoil growing out of nonenforcement, bootlegging and other evils, much like the conditions that now prevail nationally," he said. "Then the situation settled down, enforcement was perfected, people became convinced of the economic advantages derived from the absence of drink and for a number of years before national prohibition became a fact Kansas was home dry, to the satisfaction of the whole state."

**NO LESS NUMEROUS**  
Referring to the hue and cry now being raised in many quarters in regard to the multitude of violations of the law, in which properties of a lot-down in prohibition prove to be the incipient stages of general governmental demoralization in this country, Mr. Allen suggested that

## BARLEYCORN'S FOE SEES DRYER NATION

Henry J. Allen

law violations incident to the liquor traffic were no less numerous in the pre-Volstead era than they are today. "The reason violations appear more numerous now is because they are more noticeable," he said. "In the old days they were carried on more under cover and the public mind wasn't attuned to the pitch of sensibilities that it is today, when prohibition is one of the outstanding subjects of thought and conversation."

"Now that the amendment is a part of the Constitution I regard it as incumbent on every American citizen to observe it, and I believe that in the end the object of the amendment will be fully accomplished."

## REFORESTATION BILL INDORSED BY WOMEN

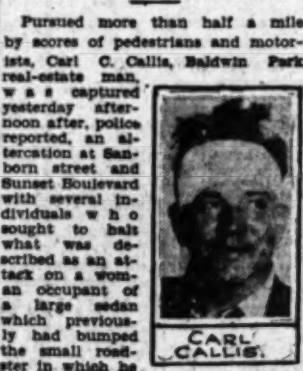

The reforestation constitutional amendment, listed on the November ballot as Proposition No. 22, has been endorsed by the California Federation of Business and Professional Women's Clubs. It was announced yesterday by Mrs. Margaret D. Yale of Burbank, president of the organization. The object of Proposition No. 22 is to guarantee encouragement to the investment of private capital in the reforestation of burned-over and cut-over lands, and to promote increased protection of young trees from fire, insects and other enemies.

**ELINOR RALLY TONIGHT**  
The opening ball rally of the Biltmore University will be held this evening at the Biltmore Hotel, 246 South Hill street. President Henry J. Allen, in charge, will give readings and popular musical numbers. Community singing, roll call, prize awards and jolly sociability will be added features and dancing will follow.

**NEBRASKANS MEET FRIDAY**  
President E. H. Hineshaw is calling the Nebraskans to meet Friday evening in the Music Art Hall at 233 South Broadway. The Warde Farmer school will present the program which will include the Mission Tyn, Mary Madison in song and dance numbers, readings and both vocal and instrumental numbers.

## AUTO CRASH ENDS IN JAIL FOR DRIVER

Realty Man Booked as "Drunk After Altercation and Spectacular Flight"

Carl Callis

Pursued more than half a mile by scores of pedestrians and motorists, Carl G. Callis, Baldwin Park real-estate man, was captured yesterday afternoon after a spectacular flight.

Callis, who was arrested on a charge of drunkenness, was the driver of a 1927 Buick sedan which was reported to have been involved in a collision with a car driven by a woman. The driver of the Buick was reported to have fled the scene of the accident and was pursued for some distance by a crowd of people. Callis was arrested by police officers who were on duty in the vicinity of the accident.

## W. R. ROWLAND ESTATE VALUED AT \$1,357,186

An estate worth \$1,357,186 was left by the late William R. Rowland, who died in Los Angeles county, according to the report of appraisers on file in the Probate Court. Listed among realty valued at \$1,000,000 are large ranch holdings at Puenite.

**EDISON MANAGER SPEAKS**  
Russell H. Ballard, executive vice-president and general manager of the Southern California Edison Company, will be the speaker of the day at the meeting of the Edison Club at the Biltmore today noon. Mr. Ballard's subject will be "What Teamwork Will Do." William Baughn, president of the Los Angeles Gas and Electric Corporation, will be chairman of the day.

"My wife always agrees with me," "Lucky chap! How do you manage it?" "I just don't ask what her opinion is." (Boston Transcript)

This image shows a dark, vertical, textured strip, likely a book binding or a piece of wood. It exhibits significant wear, including scratches, scuffs, and discoloration. The texture is rough and uneven, with a prominent vertical crease or fold running down the center. The overall appearance is aged and weathered.
